Technical Outerwear for today's hardcore rider

Klim
AGGRESSIVE SLED WEAR

TECHNICAL OUTERWEAR

Klim is highly technical outerwear designed to meet today's aggressive, physical style of riding. Klim provides a unique combination of fabrics, features and patterning which assures ease of movement and a dry ride. So, whether you are attempting to high mark, negotiating deep snow or just plain haulin' butt — Get **Klim** !!! www.klimsledwear.com

Klim MOUNTAIN PARKA

With its rugged construction and bold, crisp appearance, the **Klim** Mountain Parka headlines our series with its waterproof, breathable Gore-Tex® fabric. Interior layers of Polartec® and Microtherm® add insulation and moisture wicking qualities. Integral to its construction is its unique ventilation system utilizing waterproof zippers in the pit areas. The parka boasts four large front pockets and an inside wallet pocket as well. A powder skirt and draw cords are built inside of the parka. As with our other garments, sophisticated sewing and patterning are other noteworthy features. Warranted against defects in materials and workmanship, this parka will keep you warm and dry! **Klim**! Style #4090. Suggested Retail \$370.00

Klim MOUNTAIN/XROSS JACKET

The **Klim** Mountain Xross Jacket is shorter, yet mirrors the dynamic look and carries the same warranty as our Mountain Parka. It features all of the technical materials (Gore-Tex®) and sophisticated sewing techniques unique to Klim outerwear. Its advantages include lighter weight and even greater freedom of movement for the racer and for the aggressive rider. Colors are as pictured above for the Mountain Parka. Style #4096. Suggested Retail \$335.00

Technical Outerwear for today's hardcore rider (208) 745-7699

Klim MOUNTAIN BIB

The **Klim** Mountain Bib with Gore-Tex® provides the same rugged, yet trim, appearance that you asked us for during our Research and Development phase several months ago. It has been designed to stay with you during your most strenuous moves and it will keep you dry. The crotch is "saddle" cut (gusseted) and construction features Gore-Tex®, an interior layer of Polartec® in the seat, and a Microtherm™ material next to the body to wick away moisture. This **Klim** Mountain Bib incorporates waterproof zippers for the full length of the legs which eliminates the need for heavy zipper flaps yet provides an additional ventilation system. Colors are as pictured for the Mountain Parka.

Warranted! Style #4091. Suggested Retail \$334.00.

Klim MOUNTAIN/XROSS PANT

Our **Klim** Mountain / Xross Pants are also constructed of Gore-Tex® and they feature all of the technical advantages of the bibs described above. However, note that they are pants designed (gusseted crotch and articulated knees) to provide for maximum freedom of movement for the aggressive rider. They (and we think you will agree) are the premier snowmobiling pant on the market today! We recommend these pants for ladies vs "drop seat" bibs which we don't make. Colors are as pictured for the Mountain Parka.

Style #4092. Suggested Retail \$296.00

Klim FLEECE PANT

The **Klim** Fleece Pant is our answer for a warm under garment which can be worn as casual outerwear too. Constructed in a wide variety of colors, the pant is made of Polartec® 200 Bipolar Series. This fleece fabric is made by Malden Mills and is in keeping with our technical approach to providing comfort in cold weather. The outer surface offers a rich velour feeling while the inner provides a pile like gathering of insulating fibers. The pant features a draw cord at the waist as well as two front pockets. Available in red, blue, green, yellow, black, indigo, and orange.

Style #4093. Suggested Retail \$69.99.

Technical Outerwear for today's hardcore rider (208) 745-7699

Klim FLEECE JACKET

The **Klim** Fleece Jacket is presented in the same technical style as the **Klim** Mountain Jacket and Parka. It features two front pockets, pit zips, chin zipper protector and detailed styling. It is constructed of Polartec® Bipolar 200 Series Fleece, which wicks moisture and is breathable. This jacket is ideal as casual outerwear or as a cold weather insulator under our **Klim** Outerwear. Available in colors the same as fleece pant. Style #4094. Suggested Retail \$89.99

Klim FLEECE VEST

Klim's Fleece Vest is a versatile garment which can be worn as an outerwear piece or as an insulating undergarment. It is constructed of Polartec® Bipolar 200 Series Fleece, and it reflects the same superior quality as do our other **Klim** products. The Klim Fleece Vest has two front zippered pockets and a chin zipper protector. Available in colors the same as fleece pant. Style #4095. Suggested Retail \$65.99

Klim MOUNTAIN SHIRT/PANT

This shirt is a jersey style pullover with a half zipper. It is constructed with Polartec® Power Stretch® series fabric which is breathable, anti-microbial and four way stretch. This fabric offers the ultimate in moisture control. It not only is breathable but it wicks moisture away from the body. This keeps the wearer dry and comfortable, and it fits the **Klim** system perfectly as it provides exceptional freedom of movement and maximum moisture management. Black only. Style #4097. Suggested Retail \$79.99 (Shirt) and Style #4088. Suggested Retail \$76.99 (Pant).

Klim DENIM SHIRT

Our **Klim** Denim Shirt is 100% cotton with button down collar and left chest pocket. It has two button adjustable cuffs and single button sleeve plackets. The shirt features horn buttons, yoke back and double needle stitching. Ideal choice for embroidering the company name (small additional charge) to be worn at the parts counter or on the sales floor. Denim color only. Style #4098. Suggested Retail \$39.99

Klim POLO SHIRT

Klim's 6.5 oz., 100% cotton pique golf shirt is ideal for leisure, office or sports. Taped welt collar and welt cuffs, pearlized buttons and double needle stitched hemmed bottom. Add personalized company embroidery (small additional charge), and it is perfect for employees at the parts counter or on the sales floor. Available in red, blue, black, and white. Style #4099. Suggested Retail \$34.99

Klim KAP

This is a mid weight, low profile, six panel, ring spun, combed cotton, brushed twill cap with an extra sturdy bill. Size adjustable with T-sliding antique brass buckle and tuck away strap. Add your company name on the back for advertising. Available in black only. Style #4089. Suggested Retail \$15.99
