WWW.KLIMUSA.COM

By implementing the latest in superior technology in moisture management, technical patterning, high performing fabrics and ergonomic ventilation we are able to offer a system of riding clothing that provides the ultimate in comfort, fit, mobility and protection.

Gore-Tex® XCR®

Extra breathability is the key factor that sets GORE-TEX® XCR® outerwear apart. No matter how active you are, perspiration vapor will travel right through the membrane, reducing sweat buildup that can stop you cold.

Gore-Tex®

The most tested — and most trusted — windproof, waterproof, breathable fabric, only GORE-TEX® outerwear carries the Guaranteed to Keep You Dry® promise.

Gore Windstopper® Soft Shell

Totally windproof, water resistant, and very breathable, WINDSTOPPER® Soft Shell garments combine the reliable protection of a shell with the comfort of a mid-layer.

Arctic Fleece

Has dual sided finishes, a berber finish on the inside creates a superior warmth barrier while the outside velour finish creates a clean look. Arctic Fleece offers superior warmth to weight ratio, excellent water vapor transmission, and is also breathable.

Thermal Guard

Offers a superior warmth to weight ratio, excellent water vapor transmission and breathability. The velour side is engineered to create thousands of air pockets that trap air, thus creating an excellent insulation zone. The polyester velour backing will keep the wearer warm and the outer nylon face provides excellent abrasion resistance.

Qwik Dry

More effective at transporting moisture than traditional wicking fabrics, Qwik Dry fabric improves performance and comfort by transporting unwanted moisture away from the rider's body.

VALDEZ

PARKA

Sizes: S-3XL

Colors: Black, Blue, Red, Yellow

Suggested Retail Price: \$389.99

The new Valdez Parka has been designed from the bottom up with more features that are specific to what the aggressive rider requires. Extra mobility and improved fit for the aggressive rider means more rider specific articulation in the sleeves, Action Back patterning in the shoulders and a rider specific fit. All these features are ensured through our proprietary FF Technology. Added new Heavy-Duty ballistic nylon, helmet friendly adjustable collar, High Impact ventilation, Guaranteed To Keep You Dry™, and our exclusive hand gaiter system gives you a parka that is in a class all its own.

- New Heavy-Duty ballistic nylon fabric
- Guaranteed To Keep You Dry®
- 25% more breathable
- High Impact ventilation
- High Activity moisture wicking inner liner
- Helmet friendly adjustable collar
- Snow dust powder skirt
- Action Back stretch patterning increases mobility through the shoulders
- FF Technology gives aggressive rider required mobility and fit
- Double stitching for increased durability
- Contoured welded cuff closure
- Hand gaiter
- YKK Zippers
- 5 exterior pockets
- 1 interior pocket
- Double front storm flaps
- Glove friendly zipper pulls
- External adjustable waist draw cord
- More visibility through increased 3M Scotchlite™ reflective piping

Material

Gore-Tex XCR
500 and 330 denier nylon

Liner

Mesh Tricot
Taffeta

FF TECHNOLOGY

Exclusive to Klim is a revolutionary technology that uses the latest in patterning and construction to create superior performing product. Known as Fast Forward Technology, it does two things. First, it creates a rider specific fit and second, it increases ease of mobility allowing the rider to ride harder and longer with less fatigue.

Specifically relating FF Technology to our clothing means understanding what it takes to design clothing for a fast forward sport like snowmobiling. Parkas and pullovers receive aggressive articulation in the sleeves and elbows which decreases bulk and gives an increased amount of mobility. Action Back patterning allows the armholes to be brought slightly forward allowing for a more rider specific cut. Pleats on the shoulders create extended range of movement making sure that the rider's movement is not restricted.

TOMAHAWK

PARKA

Sizes: S-3XL (3XL black only)

Colors: Black, Blue, Red, Yellow

Suggested Retail Price: \$299.99

Designed to give even the most aggressive rider the protection and comfort needed to get through a hard day of riding. Performance is guaranteed with the use of Gore-Tex® that keeps you dry during the nastiest weather and comfortable when you are riding hard. Also outfitted with articulation in the shoulders and elbows, four front pockets, powder skirt, and high tenacity fabrics – all ensures that you can feel confident that you are riding in the best.

- Max Flow ventilation
- Hand gaiter
- Micro injected cuff closures

MAX FLOW VENTILATION

Max Flow ventilation utilizes two underarm zippered vents to circulate out unwanted heat.

Style #3172 | POWERXROSS PULLOVER

Sizes: S-3XL

Colors: Orange, Gray

Suggested Retail Price: \$289.99

Over the top, through the bumps and disappearing in the deep powder is where you will find this pullover. Designed with lightweight ripstop nylon on the body of the pullover and high tenacity fabric on the sleeves and shoulders, the PowerXross Pullover is the lightweight option for the most aggressive riders.

- Pass thru pocket
- Lightweight ripstop nylon
- High Activity moisture wicking inner liner
- Compactable and lightweight
- YKK zippers
- Double stitching
- Micro injected cuff closures
- Glove friendly zipper pulls
- FF Technology gives aggressive rider required mobility and fit

HIGH ACTIVITY LINER

Is designed with the most aggressive rider in mind. This liner will help transmitt unwanted moisture produced by your body away keeping you dry and comfortable while allowing built up heat from hard riding to escape.

INVERSION

JACKET

Sizes: S-4XL

Colors: Black

Suggested Retail Price: \$189.99

Our Inversion Jacket, the first Gore Windstopper® Soft Shell jacket in the snowmobile market, has created a new breed of clothing for the snowmobile market. The Inversion Jacket is a piece of technical clothing that has a dual purpose. First, due to its high breathability and great heat retention it works well as a non bulky mid layer piece that you can add to your layering system. Second, because of the jacket's durable nylon face fabric and the fact that it is 100% windproof and highly water resistant, you can wear it as an outerwear piece on the mild and moderate days.

- 3 times warmer than traditional fleece
- 100% windproof
- Highly breathable
- Water resistant
- Zip off sleeves
- 2 chest pockets – vents
- 2 hand pockets
- Waterproof center front zipper
- Cuff gaiter
- Bottom draw cord

TOGWOTEE

BIB

Sizes: S-3XL Reg/Tall Inseam
Colors: Black, Blue, Red, Yellow
Suggested Retail Price: \$359.99

Newly designed with feedback from the most aggressive riders on the snow today, the Togwotee Bib has been built with exclusive features that will keep the aggressive rider comfortable, dry and protected from the elements. Taking advantage of our proprietary FF Technology, we were able to pattern the Togwotee Bib to allow for more mobility and a more comfortable fit. This new design also features new Heavy-Duty ballistic nylon on the knees, stretch panels on the side, a stretch panel across the back and two more pockets.

- New Heavy-Duty ballistic nylon fabric
- Guaranteed To Keep You Dry®
- 25% more breathable
- High Impact ventilation
- FF Technology gives aggressive rider required mobility and fit
- Double stitching for increased durability
- High Activity moisture wicking inner liner

OUTER LAYER

This layer is comprised of waterproof breathable materials which are designed to allow moisture to exit the clothing while not letting moisture from the outside to come in. Both waterproofness and breathability are essential to the layering system.

style 9375 **EXTREME**

BIB

Sizes: S-3XL reg/tall in seam (3XL in black only)
Colors: Black, Blue, Red, Yellow
Suggested Retail Price: \$299.99

The Extreme Bib is a Gore-Tex® bib that boasts all of the conveniences of a bib and all of the comforts of a pant. It comes up in the back like a bib with suspenders, but is left open in the front to minimize bulk. Articulated knees, gusseted crotch and patterned seat all help to create the most comfortable bib whether you are standing up on the running boards or sitting down on the seat.

- 2 hand pockets
- Guaranteed To Keep You Dry
- Aggressive patterning
- YKK zippers
- Glove friendly zipper pulls
- Gusseted crotch
- Mid high bib (high back pant)
- Non slip adjustable suspenders
- Knee, cuff and seat reinforced with high tenacity nylon
- Stretch elastic back panel
- Snow gator with retention snaps
- Removable knee/shin pads
- High Activity moisture wicking inner liner

AGGRESSIVE PATTERNING

Patterned and constructed with all the necessary features to meet today's aggressive rider's needs. Close attention has been paid to sleeves, elbows, legs and knees to insure maximum mobility and comfort.

FREE RIDE PANT

Sizes: S-2XL reg/tall inseam (2xl in black only)
Colors: Black, Blue, Red, Yellow
Suggested Retail Price: \$389.99

Back country riders, Trail bangers and some of your more aggressive riders will appreciate what the Free Ride Pant has to offer. Using Gore-Tex® guarantees this pant to keep you dry while allowing sweat built up from hard riding to exit the pants, keeping you comfortable. FF Technology allows this pant an increased amount of comfort which benefits those riders who need maximum mobility.

- FF Technology gives aggressive rider required mobility and fit
- Gusseted crotch
- 2 waterproof hand pockets
- Lightweight design
- Comfortable compression waist adjustment
- D ring
- Double stitching
- High tenacity fabrics
- Knee, cuff and seat reinforced with Heavy-Duty ballistic nylon

SUNDANCE

PARKA - Women's

Sizes: S-XL

Colors: Black, Blue, Red, Yellow

Suggested Retail Price: \$359.99

The Sundance Parka is built around the same innovation and technology that is found in all of Klim's clothing, such as GORE-TEX®, waterproof zippers and fabrics that protect, but won't restrict movement. What you will find different is the parka is designed by women, specifically for women. The Sundance Parka also differs in that we use a liner material that has a greater amount of loft but is still relatively thin and not bulky. The liner material is more efficient at creating a warm pocket of air while allowing moisture generated by the body to be released.

- Women's specific patterning
- Hand gaiter
- Thermal Regulating liner adds warmth and moisture management
- Shoulders and sleeves reinforced with high tenacity fabrics
- 2 chest pockets
- 2 hand pockets
- Reflective piping 3M Scotchlite™
- High Impact ventilation
- Double front storm flap
- Waist draw cord
- Aggressive patterning
- Snow dust powder skirt

Material

Gore-Tex®
330 and 200 denier nylon

Liner

HIGH IMPACT VENTILATION

High Impact ventilation is the ultimate in ventilation. In the parkas we use 3 different zippered vents which allows cold air in and forces hot air and moisture out through the back vent. In the bibs and pants you will find full length side zippers that can be unzipped allowing maximum venting.

501276 | SUNDANCE

BIB - Women's

Sizes: S-XL reg/tall inseam

Colors: Black

Suggested Retail Price: \$299.99

The Sundance Gore-Tex® Bib was specifically designed for the aggressive women riders both in patterning and features. This bib features adjustable removable suspenders with a drop seat that can be accessed without taking off your suspenders. You will also find waist adjustment on the sides, full length zippers on the sides of the bib and snow gaiters on the inside of the legs.

- Women's specific patterning
- Guaranteed To Keep You Dry®
- Hand gaiter
- Thermal Regulating liner adds warmth and moisture management
- High tenacity fabrics for improved durability
- 2 hand pockets
- High Impact ventilation

THERMAL REGULATING LINER

Its first priority is to effectively manage the rider's thermal requirements keeping the rider at a comfortable temperature when conditions are persistently colder or activity level is not as aggressive. It is also efficient at moisture management.

EVEREST JACKET

Sizes: S-3XL (3XL in black only) Kids sizes: 2T, 4T, 6, 8, 10, 12
Colors: Black, Blue, Red
Suggested Retail Price: Adult \$69.99
Kids \$49.99

The Everest Jacket is a mid layer piece of our layering system and is designed to be removable insulation. It is constructed of Arctic Non Pilling Fleece, which generates warmth while it wicks moisture away and is breathable. The Everest Jacket is designed to go underneath your Klim Parka or as a piece by itself.

- Velour outer surface resists pilling
- Berber inside finish used for maximum heat retention
- Moisture wicking

EVEREST PANT

Sizes: XS-3XL

Colors: Black

Suggested Retail Price: \$69.99

The Everest Pant is our answer for a warm mid layer which provides unmatched comfort and warmth. This pant is made with Arctic Non Pilling Fleece fabric which offers superior warmth to weight ratio. In keeping with our technical approach, the pant is outfitted with a side adjust webbing belt, two cargo pockets and reinforced knees, unquestionably making this fleece pant unmatched on the market today.

- Velour outer surface resists pilling
- Berber inside finish used for maximum heat retention
- Moisture wicking
- Highly breathable
- 2 external cargo pockets
- Webbing belt with 2-way adjusting buckle
- Reinforced knee panels
- Zippered fly

Material

Arctic Fleece

Nylon

MID LAYER

This is the layer that is designed to control heat. Like the base layer the mid layer is made from synthetic materials which will not hold onto moisture like cotton, and will transport moisture to the outside. Put this layer on if you start cooling down or take it off if you start to warm up. This layer is designed so that it can be easily put on or taken off depending on the level of activity and the outside conditions.

REVOLT
PULLOVER

Sizes: M-2XL

Colors: Black, Orange

Suggested Retail Price: \$69.99

The Revolt Pullover is a lightweight shell made of wind resistant fabric. This pullover is the perfect piece of clothing to wear on the track or to stash in your pack just waiting for the right time to be pulled out to give you maximum protection from the wind and to cut the chill. Oversized to fit over your Tek Vest

Material

100% Polyester

REVOLT JERSEY

Sizes: M-2XL

Colors: Black, Blue, Red, Yellow

Suggested Retail Price: \$49.99

The Revolt Jersey is constructed from 100% polyester micro fiber fabric which offers maximum breathability and superior moisture wicking properties, keeping you comfortable and dry.

Material

100% Micro fiber polyester

SWR #3157 | INFERNO

SHIRT

Sizes: XS-3XL

Colors: Black

Suggested Retail Price: \$79.99

The Inferno Shirt is the most versatile fleece piece we make. By combining three different fabrics into one, the Inferno Shirt works extremely well at maximizing warmth and managing moisture. The Inferno Shirt is designed as part of our layering system as either a base layer worn next to the skin or as a mid layer piece worn over our Aggressor Shirt. Its primary functions are to help you stay dry and comfortable no matter how hard you ride. Developed as a zippered shirt, it has been patterned with increased articulation in the arms and a raglan sleeve cut to give maximum mobility

- *Moisture wicking fabric*
- *Highly breathable*
- *Flat lock stitching for increased comfort*
- *Mock turtleneck*
- *Highly abrasion resistant*
- *4 Directional stretch*
- *Chest pocket*

Material

Thermal Guard fabric

style #3155 **INFERNOPANT**

Sizes: XS-3XL

Colors: Black

Suggested Retail Price: \$76.99

Essential to our layering system, the Inferno Pant is designed with a fabric that accelerates moisture transmission, allowing the rider to ride hard and stay comfortable. Patterned to allow maximum mobility and increased comfort, you will hardly notice you are wearing these pants. Features such as two hand pockets, an elastic draw cord and a back pocket make this pant the ultimate fleece piece.

- *Moisture wicking fabric*
- *Highly breathable*
- *Flat lock stitching for increased comfort*
- *Elastic waist with drawstring*
- *Highly abrasion resistant*
- *4 directional stretch*
- *2 hand pockets*
- *1 back pocket*

Material

Thermal Guard fabric

AGGRESSOR SHIRT

Sizes: S-2XL

Colors: Black

Suggested Retail Price: \$29.99

The Aggressor Shirt is the foundation of our moisture management systems. With the ability to wick perspiration away from the rider's body and dry quickly, this shirt is where a dry ride starts. Features such as a crew neck, longer back tail, and flat lock construction make this piece a must.

Material

Qwik-Dry

BASE LAYER

Designed to go next to your skin. This layer is built with moisture wicking materials that wick moisture away from the skin keeping the rider dry. Staying dry creates comfort which allows you to ride longer and harder with less fatigue.

style #3158 | **AGGRESSOR BRIEF**

Sizes: S-2XL

Colors: Black

Suggested Retail Price: \$16.95

The Aggressor Brief has the same goal as the Aggressor Pant and that is to get rid of moisture your body gives off, allowing a dry ride. Designed as a brief that can be worn year round, it features added support, exposed elastic waist, front fly, flat lock construction.

Material *Qwik-Dry*

style #3157 | **AGGRESSOR PANT**

Sizes: S-2XL

Colors: Black

Suggested Retail Price: \$29.99

Staying dry is key to an enjoyable ride. The Aggressor Pant is designed to manage the moisture your body gives off three different ways. First it wicks moisture away; second, it allows moisture in the form of vapor to pass through; and third, it has Qwik-Dry technology which allows perspiration to quickly evaporate. So leave the cotton at home and experience a dry ride. Features include an exposed elastic waist, front fly, rib cuffs, and flat lock construction.

Material *Qwik-Dry*

style #3137 | TOGWOTEEGLOVE

Sizes: S-2XL
 Colors: Black, Blue, Red
 Suggested Retail Price: \$79.99

Our Togwotee Gore-Tex® Glove provides maximum climate control, maximum versatility, and fits more comfortably than any glove on the market. For those deep snow days or the coldest days on the sled, the Togwotee glove offers everything you need. Features include a removable fleece liner for extra warmth, padded knuckles for protection and new leather palm for optimal grip. Add all that up and you have the best extreme weather glove on the market.

style #3138 | POWERXCROSSGLOVE

Sizes: S-2XL
 Colors: Black, Blue, Red
 Suggested Retail Price: \$75.99

Our mid-length PowerXross Gore-Tex® Glove gives the rider the best of all worlds: compact fit, lightweight, breathable, and waterproof. Great for those nicer days when the maximum climate control of the Togwotee is not needed.

style #3062 | REVOLT GLOVE

Sizes: S-2XL
Colors: Gray, Blue, Red
Suggested Retail Price: \$31.99

The Revolt Glove is an MX style glove that offers the maximum in dexterity, grip and mobility. For those days where minimal protection from the elements is acceptable. Slip this glove on and have the grip you can count on.

style #3063 | MOAB GLOVE

Sizes: S-2XL
Colors: Black, Blue, Red
Suggested Retail Price: \$19.99

This MX style gloves offers a slip-on design, a ventilated top, and a two piece synthetic leather palm to create a great "feel" for the handlebars. The glove of choice for spring riding or when riding conditions and weather allow.

style #3112 | RADIUMBOOT

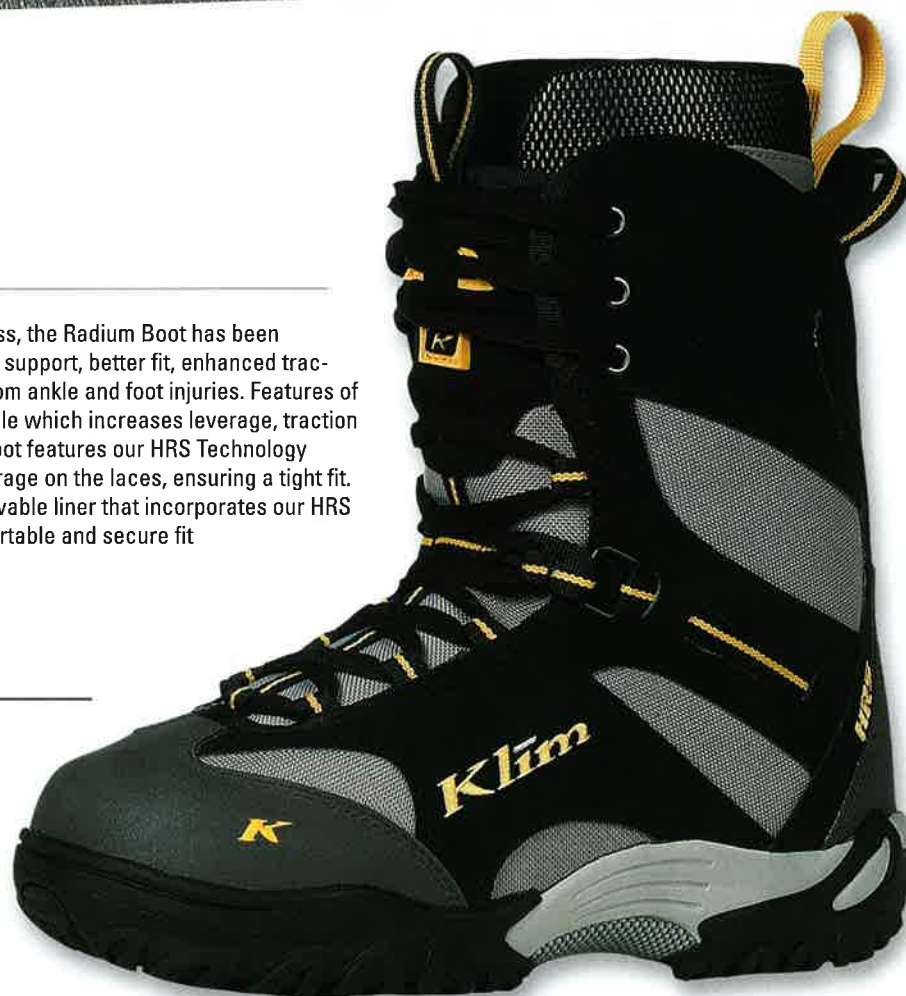

Sizes: 7-14

Colors: Black

Suggested Retail Price: \$146.99

The top selling boot of its class, the Radium Boot has been designed for increased ankle support, better fit, enhanced traction, and added protection from ankle and foot injuries. Features of this boot include a 3-piece sole which increases leverage, traction and shock absorption. The boot features our HRS Technology which helps to increase leverage on the laces, ensuring a tight fit. This boot comes with a removable liner that incorporates our HRS Technology for a more comfortable and secure fit

style #3118 | KLIMSOCK

Sizes: M, L

Colors: Black

Suggested Retail Price: \$19.99

If there was ever a technical sock, the Klim Sock is it. The Klim Sock is constructed with Coolmax for excellent moisture transmission, Polyamide for longevity and Lycra for extended comfort. Add elastic to the top of the sock, the ankle, and the arch and you get a sock that stays in place. Other features include shock block padding for your shin and thermal terry lining for cushion and added comfort.
