 Taffeta

**FF TECHNOLOGY**

Exclusive to Klim is a revolutionary technology that uses the latest in patterning and construction to create superior performing products. Known as Fast Forward Technology, it does two things. First, it creates a rider specific fit and second, it increases ease of mobility allowing the rider to ride harder and longer with less fatigue.

Specifically relating FF technology to our clothing means understanding what it takes to design clothing for a fast forward sport like snowmobiling. Parkas and pullovers receive aggressive articulation in the sleeves and elbows which decreases bulk and gives an increased amount of mobility. Action Back patterning allows the armholes to be brought slightly forward allowing for a more rider specific cut. Pleats to the shoulders create extended range of movement making sure that the rider's movement is not restricted.

**INVERSION JACKET**  
 Sizes: S-3XL  
 Colors: Black/Black, Gray/Black  
 Suggested Retail Price: \$199.99

Its overcast and 5 Degrees as you start your sled. In an hour you are above the clouds and things are heating up. You have an Inversion. Stacked with breathability and heat retention this is the ultimate mid layer fleece, but that's not all. Using industry leading GORE WINDSTOPPER® Soft Shell 100% windproof fleece and being highly water resistant, riders can create an inversion of their own. Wear this nylon faced fleece as an outer shell and really heat things up on the mountain or on the street.

- 3 times warmer than traditional fleece
- 100% windproof
- Highly breathable
- Water resistant

**SUNDANCEPARKA**

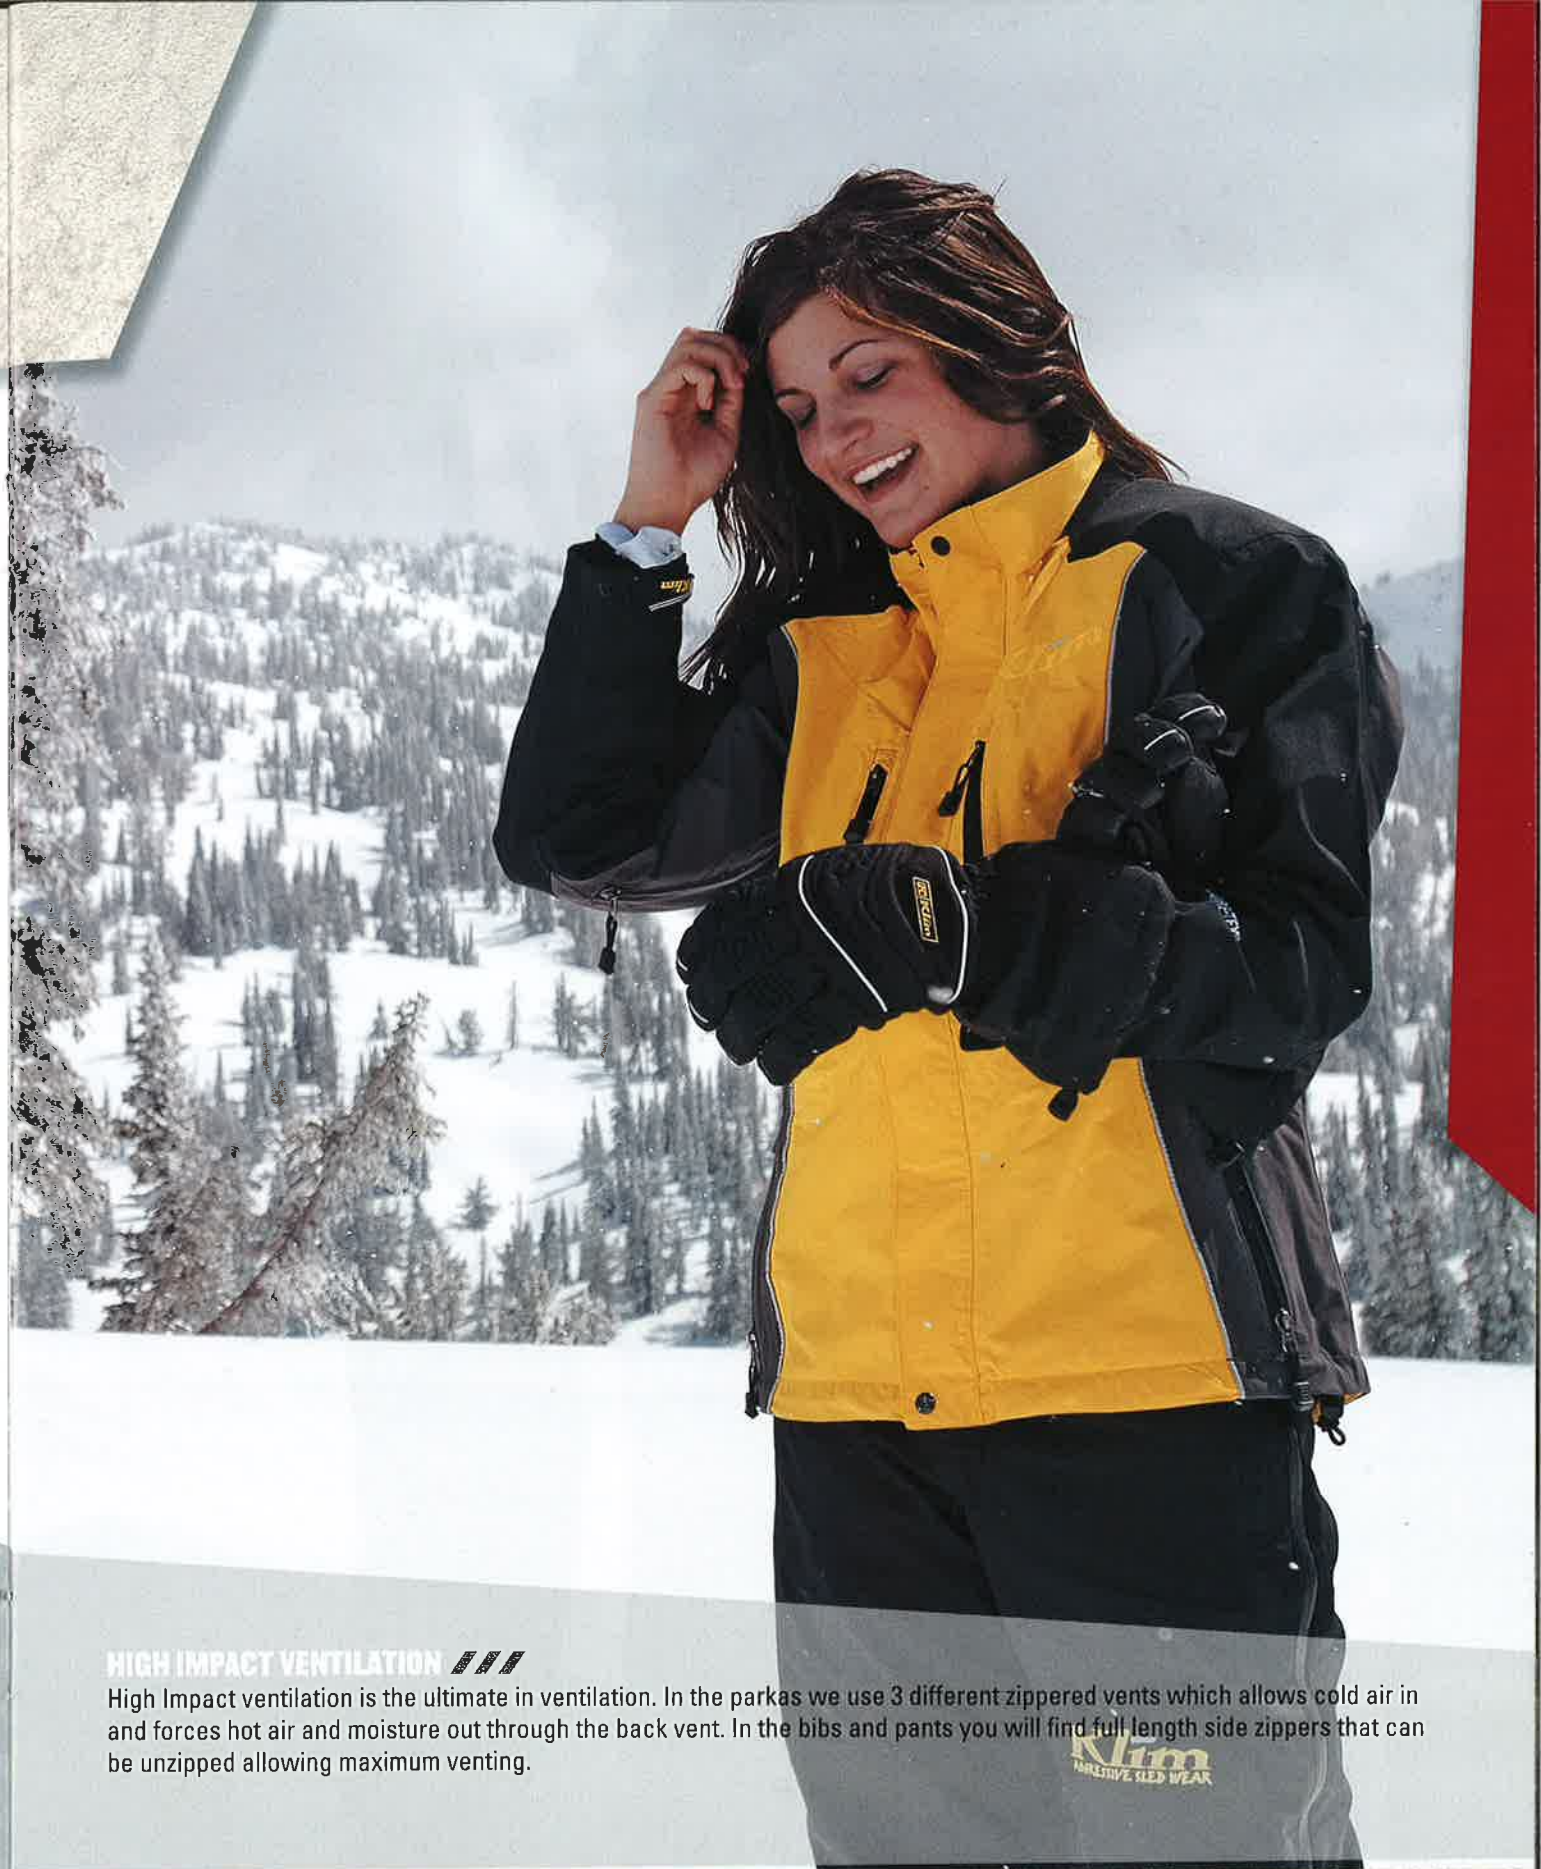

Sizes: XS-XL  
Colors: Black, Blue, Red, Yellow  
Suggested Retail Price: \$359.99

Comfort, perfect fit, and a look all their own is what women riders demand. The Sundance is built with the same industry leading technology as all of Klim's other garments, but with the input of women riders. It is designed with a thermal regulating liner to help create a warm layer of air and not add bulk. The Sundance will let the women pick on the boys with function and style.

- Women's specific patterning
- Hand gaiters
- Thermal Regulating liner adds warmth and moisture management
- Shoulders and sleeves reinforced with high tenacity fabrics
- 2 Chest pockets
- 2 Hand pockets

**MID LAYER** ///

This is the layer that is designed to control heat. Like the base layer the mid layer is made from synthetic materials which will not hold onto moisture like cotton, and will transport moisture to the outside. Put this layer on if you start cooling down or take it off if you start to warm up. This layer is designed so that it can be easily put on or taken off depending on the level of activity and the outside conditions

style # **3114**

 Suggested Retail Price: \$159.99

Powder, trail, snow or sun, the all new Adrenaline GTX Boot is up to the challenge. This new versatile boot incorporates a breathable GORE-TEX® liner to keep riders feet warm and dry. This is the industry's first snowmobile specific GORE-TEX® boot. This non bulky and insulated boot will stand with riders as they challenge anything that comes their way and go home smiling.

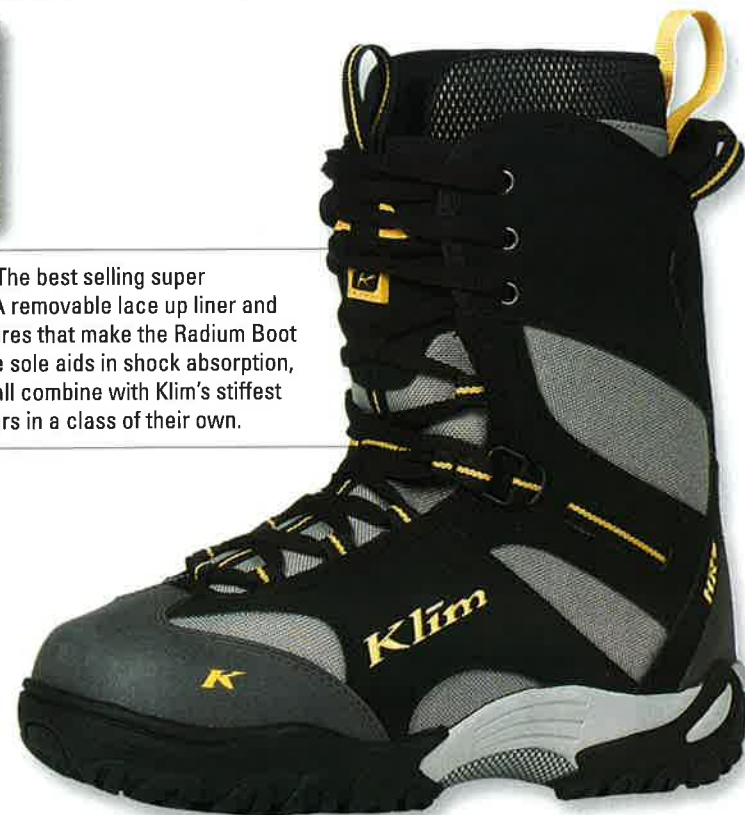

- Ankle cutout promotes forward flex
- Anchored lace loops for synch down power
- Elliptical eyelets
- Kicker Toe piece resists wear from tunnel bolts
- Heat formed plastic frame protects ankle from excessive lateral (side to side) ankle movement
- Stiff lasting board to help disperse shock and protect bottom of foot
- GORE-TEX Membrane Guaranteed To Keep You Dry and Extremely Breathable
- 600 gram Thinsulate insulation increased warmth without unneeded bulk
- Internal EVA foam to cushion top and tips of toes
- Multi-layer substructure constructed from perforated materials increased overall breathability
- Moisture wicking liner materials

style # **3112**

**RADIUMBOOT**  
 Sizes: 7-14 (Men's)  
 Colors: Black  
 Suggested Retail Price: \$146.99

Aggressive and competition riders need the best. The best selling super structured Radium Boot is at the top of the class. A removable lace up liner and increased ankle support are just a few of the features that make the Radium Boot the leader in support and function. The three piece sole aids in shock absorption, increases leverage and traction. These elements all combine with Klim's stiffest flex pattern to put aggressive and competition riders in a class of their own.

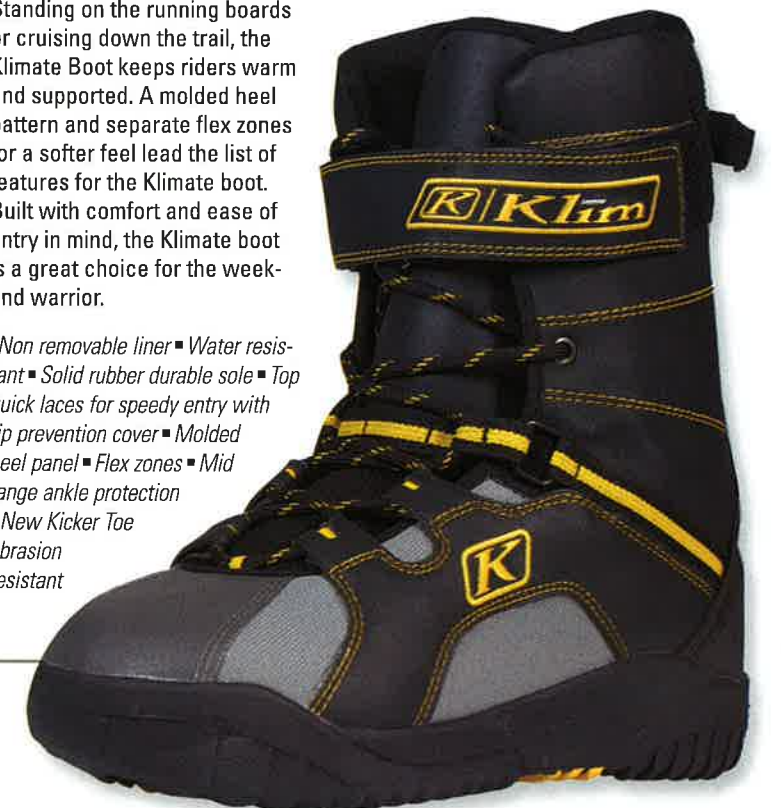

style # **3007**

**KLIMATEBOOT**  
 Sizes: 7-15 (Men's)  
 Colors: Black/Gray  
 Suggested Retail Price: \$89.99

Standing on the running boards or cruising down the trail, the Klimate Boot keeps riders warm and supported. A molded heel pattern and separate flex zones for a softer feel lead the list of features for the Klimate boot. Built with comfort and ease of entry in mind, the Klimate boot is a great choice for the weekend warrior.

- Non removable liner
- Water resistant
- Solid rubber durable sole
- Top quick laces for speedy entry with rip prevention cover
- Molded heel panel
- Flex zones
- Mid range ankle protection
- New Kicker Toe abrasion resistant

style # **3118**

**KLIMSOCK**  
 Sizes: 7-10 (M), 11-14 (L)  
 Colors: Black  
 Suggested Retail Price: \$19.99

Cold wet feet can make a great ride miserable. The Klim sock is engineered to move moisture away from the skin and keep riders feet warm and dry. The Klim sock features industry leading Polyamide for longevity and Lycra for all day comfort. Elastic is added to the top of the ankle and arch to keep the sock planted firmly to the rider's foot. A thermal terry liner makes this the most comfortable sock on the snow.

style # **3217**
