SNOW 2017-2018

# SNOW 2017-2018

It's incredible to think that KLIM has been in business for almost two decades. This crazy adventure started in college when I sourced some ski apparel and started selling it to peers. The business slowly grew as we built clothing for ski resort workers that had to be durable and hold up to long days of work on the snow. Sound familiar?

In those years we learned a lot of hard lessons on what it takes to produce clothing for extreme environments. Market conditions changed and before we knew it our little business was struggling to survive. Just then we saw a need in the snowmobile industry for a similar product to what we were already producing. We quickly transitioned and KLIM was born.

We had almost no money and certainly no customers but we did have valuable knowledge of clothing design, manufacturing, the conditions of snowmobiling and a lot of passion. At this time a lot of snowmobiles were transitioning from sit-down machines to a more active, athletic off-trail riding style. The active, durable, waterproof and breathable snow clothing we had been building was an almost perfect match for this new breed of rider. The timing was perfect and as we launched the product line at snowmobile shows our little company quickly began to gain traction.

From there we grew as quick as our checking account and credit cards would allow us, building more products and helping more riders enjoy a drier, more comfortable experience in the backcountry. Our products drove our company and we always resisted adding pieces that didn't bring a tangible benefit to riders they couldn't get from another brand. Through the process, we grew to add durable off road motorcycle products and later added a line of adventure motorcycle apparel to meet the surprisingly similar needs of these riders.

Our formula has always been simple: identify a need, design a piece to solve that need, source the absolute best materials and components available and build it with the simple goal of enhancing the customer's experience. A garment is only as good as its weakest component. So, it is incredibly important that everything that goes into the piece is of the highest-quality possible. We focus on this in everything we do, because at the end of the day the customer's experience is at stake.

None of this would have been possible over the last two decades without the thousands of people that make the KLIM machine operate day-in and day-out. From the product and administrative teams in Rigby, to the factory workers and sales staff in dealerships around the world, there are literally thousands of people that get up everyday and work hard to help more powersports enthusiasts have a better experience on their once-in-a-lifetime epic adventures.

Our company has grown considerably and overcome many challenges. But, in spite of it all one thing has never changed, and that is our desire to give the rider a better riding experience by wearing KLIM.

## F5 SERIES

Revolutionary Comfort.

Intensive design, testing, and rider feedback have come together to engineer the most comfortable helmet experience in power sports. Combining low weight, intuitive venting, and next-gen safety features, KLIM has designed the F5 to excel in the most demanding environments, all day.

### WHAT YOU GET

- ALL HELMET SYSTEMS ARE DESIGNED FOR ONE RESULT: ALL-DAY COMFORT
- RIDE COOL ALL DAY WITH EXTREME VENTILATION AT ANY SPEEDS
- RIDE CONFIDENTLY WITH THE LATEST PROTECTIVE TECHNOLOGIES

#### FEATURES:

- FULL KLIM® KARBON FIBER SHELL
- ONE OF THE LIGHTEST HELMETS IN THE INDUSTRY
- EXTRA LARGE EYE PORT FOR MAXIMUM FIELD OF VISION
- TRIPLE DENSITY EPS
- WIND TUNNEL TESTED
- FID-LOCK® STRAP CLOSURES (EXTREMELY EASY TO TAKE HELMET ON AND OFF)

#### VENTILATION:

- MOST VENTILATED HELMET IN THE INDUSTRY
- 18 INTAKES AND 8 EXHAUST VENTS
- DIRECT VENT EPS DESIGN
- DESIGNED FOR RADIANT HEAT LOSS AT LOW SPEEDS

#### SAFETY:

- SHELL STRUCTURE DESIGNED FOR MAXIMUM STRENGTH WHILE REMAINING LIGHTWEIGHT
- NECK BRACE COMPATIBLE
- EXCEEDS ECE CERTIFICATIONS

#### COMFORT:

- FOCUS ON FIT
- ANTI-MICROBIAL AND ANTI BACTERIAL MATERIALS
- MOISTURE-WICKING DRYLEX® COMFORT LINER
- 2 SHELL SIZES AND 2 EPS SIZES FOR THE BEST FIT AND MAXIMUM COMFORT TO FIT YOUR HEAD LIKE A GLOVE
- 3D COMFORT MAPPED CHEEK PADS

#### INCLUDES:

- WINDSTOPPER LINER
- BREATH BOX
- EXTRA VISOR
- HELMET BAG
- EXTRA HARDWARE

## F3 SERIES

KLIM's F3 Off-Road helmet is a most-valuable riding partner. Composite shell construction means the F3 can be strong and lightweight in a modern, sleek design. Structure Mapped Composite construction, a new complete comfort liner system, intelligent ventilation and KLIM legendary quality combine in the new F3.

### WHAT YOU GET

- **MAXIMIZE THE MINIMUM** – The F3 is engineered to minimize neck fatigue and maximize impact protection.
- **BUILT STRONG** – KLIM's all-new F3 starts a light and strong revolution in off-road style helmets. Constructed with KLIM's Structure Mapped Composite base material lay up, the F3 optimizes strength in all the right areas while reducing overall weight.
- **REFINED FIT** – KLIM took old helmet technology and tossed it. With the new F3, riders enjoy up to 10% smaller external dimensions and a sleeker, more comfortable fit from three shell sizes.
- **LET OFF SOME STEAM** – KLIM is the industry leader in body comfort, and developing an effective intelligent ventilation system for the F3 was key. Thirteen intake vents combine with six exhaust ports to provide optimal heat dispersion even while stationary.
- **WIDE OPEN SPACES** – The KLIM F3 Helmet features the widest, unobstructed field of view in its class, ensuring you'll never miss the epic views it takes you to.
- **ALL-DAY COMFORT** – The KLIM F3 features the latest Custom EPS and internal liner systems to secure the rider's head completely. EPS, 3D Ergonomic cheek pads and liner foam are optimized for a great fit.
- **SYSTEMS CHECK** – KLIM engineered the new F3 to work in conjunction with market leading neck brace technology, not against it.
- **EXPECTATIONS** – Thanks to innovative construction techniques and premium materials, the KLIM F3 meets or exceeds the most demanding ECE and DOT standards for motorcycle helmets at reduced weight
- **KLIM CUSTOM FIT** – Klimatek™ Fabric liner systems utilize adaptive smart foam technology and anti-microbial/bacterial fast-wicking textiles.

# VIPER PRO

- FOV+ FRAME GEOMETRY FOR MAXIMUM FIELD OF VIEW
- TRI-TESTED POLYCARB UV400 DUAL LENS
- FOGTECH HD ANTI-FOG LENS COATING
- TRIPLE LAYER BREATHABLE FACE FOAM
- INCLUDES PREMIUM CLEANING CLOTH/STORAGE BAG
- STRAP OUTRIGGERS\*
- SNOWMOBILE-SPEC OVERSIZED FACE FOAM\*
- AIR FORCE INDUCTION (A.F.I.)\*
- 46MM WIDE GOGGLE STRAP\*
- NOSE GUARD
- COMES WITH EXTRA CLEAR LENS\*

\* FEATURES EXCLUSIVE TO VIPER PRO.

The KLIM VIPER/VIPER PRO redefines the riding experience on the snow. The VIPER is engineered to provide the best optical clarity, vision, field of view (F.O.V.) and fit experience. Ventilation and moisture management systems aggressively combat fogging. Integrating a super-thin frame design, the Viper is compatible with a wide range of open-face helmets.

**GEMIN-EYE ANTI-FOG:** Anti-fog treatments were first developed by NASA during project Gemini to provide their spacesuit with a lens that would fight condensation in space. Likewise, the best snowmobile goggle should perform for every rider and withstand extreme conditions. After sourcing the best materials and methods around the globe, KLIM is the first to offer GeminEYE anti-fog. Rather than a simple hand application on one side of the lens, we dip the entire inner lens in the GeminEYE formula as a dual shield against fog up to 3X longer than competitor lenses. The dual-pane lens is thermally bonded for 24 hours then heated again during production to evaporate any moisture that may have built up during the manufacturing process for a vivid lens throughout the VIPER GOGGLE's entire field of vision. When it comes to eliminating fog and performing better and longer, GeminEYE is the answer.

# OCULUS

## SNOW GOGGLE

The KLIM® Oculus Goggle is designed with one purpose in mind: to give you the best possible vision on the snow.

This was accomplished by addressing the three main pain points of all goggles: changing light conditions, fogging and field of vision.

The Oculus system with KLIM® Slide-Lock™ technology allows you to quickly and easily change lenses in the field to deal with changing light conditions - essentially it's like having [up to] three goggles with you in a very compact package. The included heat-formed case allows you to carry an [included] extra lens plus one upgrade lens [not included] with you on your next ride. The Oculus is engineered with the latest anti-fogging technologies such as unparalleled air circulation, massive internal air volume and the KLIM® CLEAR™ anti-fog technology. The spherical, optically correct lens design provides unprecedented peripheral vision and clarity.

- QUICKLY/EASILY CHANGE LENSES IN THE FIELD TO DEAL WITH CHANGING LIGHT CONDITIONS
- SPHERICAL/OPTICALLY CORRECT LENS PROVIDES SUPERIOR FIELD-OF-VISION AND CLARITY
  - MAXIMUM AIRFLOW/MAXIMUM AIR VOLUME = LESS FOGGING

## STORM PARKA

\$399<sup>99</sup> USD / \$539<sup>95</sup> CAD

ORANGE

The Storm brings a new level of functional Boondocking performance to KLIM's layering outerwear. With intense ventilation options available from six ports and GORE-TEX® Performance Shell technology, the Storm easily keeps aggressive riders dry and comfortable all day. Storm riders choose to ventilate often, keeping their core temps under control when riding action heats up as they ride from sun-up to sun-down.

- HIGHLY TECHNICAL AND DURABLE NYLON SHELL
- TREE-BASHING RUGGEDNESS
- EPIC VENTILATION

### PARKA:

- 2 VERTICAL OUTSIDE CHEST VENTILATION INTAKES
- 2 VERTICAL BACK VENTILATION EXHAUSTS
- WIDE OPEN PIT ZIPS WITH INTERIOR STORM FLAP
- HEAVY-DUTY NYLON IN HIGH-WEAR AREAS
- 500D CORDURA® MAIN BODY FABRIC

### BIB:

- GORE-TEX® THREE-LAYER PERFORMANCE SHELL TECHNOLOGY
- FULL LENGTH SIDE ZIPS
- 2 HAND POCKETS • 2 CHEST POCKETS

## HAVOC BIB

\$399<sup>99</sup><sub>USD</sub> / \$539<sup>95</sup><sub>CAD</sub>

The world's first snowbike-specific bib engineered for the extreme conditions of backcountry snow bike excursions. Over-the-top durability and maximum freedom-of-movement ensure this pant is up to the heat and brutality of your next ride. The Havoc is also a perfect crossover bib for the most destructive snowmobilers.

- ENGINEERED SPECIFICALLY FOR THE EXTREME BACK COUNTRY SNOW BIKE RIDER
- EXTREMELY DURABLE LEATHER PANEL OVERLAYS (WITH WATER REPELLENT TREATMENT) ON THE INNER KNEE AND INNER BOOT FOR MAX ABRASION AND BURN RESISTANCE
- EXTREMELY DURABLE 420D CORDURA FABRIC OVERLAY ON THE OUTER KNEES, SHINS, AND CUFFS
- EXTREMELY DURABLE 315D CORDURA FABRIC OVERLAY ON THE INSIDE KNEE LINER FOR MAX KNEE BRACE PROTECTION
- FULL-LENGTH SIDE ZIPPERS

BLACK

Dual-layer dry-seat technology and extremely durable leather overlays in inside legs make the Havoc Bib the most durable snowbike bib on earth.

### RUGGED FABRICS BUILT FOR POWERSPORTS

KLIM's Aggressor Cool -1.0 Base Layers provide a level of cooling and comfort never before seen in the power sports industry. Coolcore's™ patented chemical-free cooling, moisture-wicking, moisture transportation and cool evaporation fabrics used in these base layers are exactly what you need to keep cool and maximize performance. Unlike other cooling and sweat-wicking fabrics that rely on chemicals or polymer crystal treatments that degrade over time, KLIM's Aggressor Cool fabrics will deliver consistent cooling and wicking performance throughout the lifetime of the garment. When high performance athletes demand high performance cooling and comfort, they go to KLIM's Aggressor Cool -1.0 base layers.

## YUKON PULLOVER

\$129<sup>99</sup> USD / \$149<sup>95</sup> CAD

The comfortable, casual styling and cozy good looks of KLIM's Yukon Pullover are merely part of the story-this is one highly technical piece of performance gear. Ideal as a heavier-weight mid-layer insulator (fits right between the Inferno and Everest in warmth) as well as the perfect pre and post-ride casual outer shirt, the Yukon promises efficient warmth with unbelievable versatility. Featuring sweater-like comfort and Polartec® Thermal Pro® insulated construction, the Yukon Pullover is always ready for the temps to fall and the snow to drop.

## TRANSITION PANT

\$129<sup>99</sup> USD / \$149<sup>95</sup> CAD

The Transition Pant is the most versatile layering piece Klim has ever made. From hanging out at home, working in the shop, to an extreme ride in the backcountry - the Transition Pant can do it all. This pant is extremely comfortable, looks great, and holds up to anything you can throw at it. Light insulation via soft brushed micro-fleece lining provides an amazing soft feel next to skin and also wicks moisture away from your body.

- DURABLE STRETCH TREKKING MATERIAL
- HIGHLY BREATHABLE
- SIDE WAIST ADJUSTERS
- BELT LOOPS

## ADRENALINE GTX® BOA®

\$349<sup>99</sup> USD / \$449<sup>95</sup> CAD

NEW COLORS

The AdrenalineGTX® BOA® Boot features the same "just right" performance and support as the legendary KLIM Adrenaline Boot, with the BOA® lacing system taking the industry's most popular GORE-TEX® boot to the next level. The BOA® System is extremely fast and when laced, provides a perfectly distributed lacing pressure that you can fine-tune for all-day comfort. The quick-release function allows you to disembark your boots within seconds. 600 grams of premium 3M™ THINSULATE™ Insulation delivers optimum warmth levels for the active rider and comfortable feet on and off the machine.

## GLOVE LINERS

LAYERING FOR YOUR HANDS

The KLIM® brand was born to provide customers non-insulated outerwear specifically designed to work with the layering system.

Now KLIM® has pioneered an industry-first layering system for your hands. KLIM® glove liners, in combination with KLIM's functionally wide range of gloves, the perfect glove setup for every type of rider is now possible.

### GLOVE LINER 1.0

\$15<sup>99</sup><sub>USD</sub>

\$19<sup>95</sup><sub>CAD</sub>

**DRY** | The KLIM® Glove Liner 1.0 features a unique blend of hyper-wicking fabrics to aggressively move moisture away from your skin for increased comfort and decreased conductive heat loss. Includes e-touch fingertip function allowing use of capacitive touch screens while being worn. Compatible with all standard-sized KLIM® gloves.

000	<b>XS</b> 110	<b>SM</b> 120	<b>MD</b> 130	<b>LG</b> 140	<b>XL</b> 150	<b>2XL</b> 160	<b>3XL</b> 170

### GLOVE LINER 2.0

\$19<sup>99</sup><sub>USD</sub>

\$29<sup>95</sup><sub>CAD</sub>

**DRY + WARM** | The KLIM® Glove Liner 2.0 features Polartec® Power Stretch® material that insulates through loft properties while also dispersing moisture across the 4-way stretch fabric. Users experience added warmth in this direct replacement for stock fleece glove liners. Includes e-touch fingertip function allowing use of capacitive touch screens while being worn.

000	<b>XS</b> 110	<b>SM</b> 120	<b>MD</b> 130	<b>LG</b> 140	<b>XL</b> 150	<b>2XL</b> 160	<b>3XL</b> 170

# PACKS & BAGS

## KODIAK BAG

\$249<sup>99</sup><sub>USD</sub> / \$319<sup>95</sup><sub>CAD</sub>

The Kodiak Bag offers maximum cargo capacity and an intelligent compartmentalized design. From the outside-in, the Kodiak's structural stoutness and weight-distributing design will easily contain all the gear you could ever possibly need. Independent boot, helmet and goggle compartments, cavernous cargo bays and numerous smaller stash and zippered pockets combine to create the ultimate full-size rolling gear bag.

## TEAM GEAR BAG

\$125<sup>99</sup><sub>USD</sub> / \$159<sup>95</sup><sub>CAD</sub>

KLIM®'s Team Gear Bag takes payload to a whole new level. Its superior capacity compartment system features four zones of intense storage: a deep boot compartment, huge center main gear compartment, soft-lined helmet pocket and quick-access external accessory pockets. Even when fully loaded (if you can find enough gear!), the Team Gear Bag remains easy to lift and carry thanks to an ingenious auto compression padded shoulder strap system and sleek, flush-grab side and end handles. Fill it, if you dare!

## WOLVERINE CARRY-ON BAG

\$159<sup>99</sup><sub>USD</sub> / \$199<sup>95</sup><sub>CAD</sub>

BLACK  
5017-000-000-000

Packing intense cargo capacity into a carry-on sized rolling bag, the Wolverine will deliver KLIM®'s gear-bag toughness and style wherever it rolls. High-function travel features include an EVA molded base with integrated corner armor, plentiful internal and external pocket choices, lightweight sturdy extendable pull handle and YKK® heavy duty zippers throughout.

## KLIM® DUFFLE BAG

\$69<sup>99</sup><sub>USD</sub> / \$89<sup>95</sup><sub>CAD</sub>

BLACK  
4014-000-000-000

The PIEPS JETFORCE is the first electronic avalanche airbag with jet-fan technology that only needs ambient air for inflation. JETFORCE is the result of the collaboration between PIEPS and Black Diamond, two leading innovators in snow safety.

- **AUTOMATIC SELF-DIAGNOSIS** - The integrated PIEPS electronics perform a system check on every startup and additional checks while armed. LEDs indicate the system status.
- **JET-FAN** - The battery-powered jet-fan inflates the extremely resistant 200 airbag in 3 seconds.
- **MULTIPLE DEPLOYMENTS** - The travel-friendly and compact Lithium-ion -battery supports 4 or more deployments per charge.
- **USER PRACTICE** - The airbag is easy to inflate and repack for several deployments or for practice. Intuitive handling. Zero cost.
- **AUTOMATIC DEFLATION** - The airbag automatically deflates after 3 minutes. In case of emergency the pressure on the buried person is reduced and the evolved 200 l air pocket ensures oxygen supply. Therefore the chance of survival is rising.
- **HIGH PERFORMANCE BATTERY FOR EXTREME TEMPERATURES** - The newest and intelligent battery-technology is specially designed and certified for extreme minus temperature (-30°C). Maximum performance and long lifetime.

## PIEPS® DSP PRO

\$419<sup>99</sup> USD / \$549<sup>95</sup> CAD

With a smart transmitter that auto-adjusts the sending antenna to give searching beacons the best signal, a huge 60-meter circular range, and mark and scan function for multiple burial scenarios, the PIEPS DSP Pro Avalanche Beacon has all the cutting-edge features pros need.

BLACK  
3144-000-000-000

## PIEPS® DSP SPORT

\$319<sup>99</sup> USD / \$429<sup>95</sup> CAD

The PIEPS DSP Sport Avalanche Beacon is the go-to beacon for the everyday snowmobiling backcountry traveler, offering circular range, a smart transmitter, and three-antenna accuracy in an easy-to-use package.

BLACK  
3141-000-000-000

## PIEPS® TX600 MINI-TRANSMITTER

\$149<sup>99</sup> USD / \$199<sup>95</sup> CAD

The PIEPS TX600 is a mini-transmitter with motion sensor for dogs and equipment that is transmitting out of the standard EN300718.

BLACK  
3497-000-000-000

## PIEPS® SHOVEL ESCAPE

\$79<sup>99</sup> USD / \$99<sup>95</sup> CAD

A multi-function tool for comprehensive backcountry use, the Escape is our top-of-the-line shovel and features two configurations: standard shovel and hoe mode. The ultra-durable construction and super compact design are ideal for both daily snow study and fast avalanche response.

BLACK  
3294-000-000-000

## KLIM® BACK COUNTRY SHOVEL SYSTEM

\$89<sup>99</sup> USD / \$119<sup>95</sup> CAD

Packing a serious punch to the face of backcountry survival situations, the KLIM Backcountry Shovel System comes complete with a quick-access saw blade and massive extendable handle for maximum reach and leverage for both the shovel and saw. The oversize grip handle and wide shovel blade ensure you can move maximum snow with the most efficiency while the sleek, easy-to-carry design keeps all your cutting and digging tools as close as possible. All aluminum construction for lightweight strength.

### PIEPS® IPROBE ONE

\$184<sup>99</sup><sub>USD</sub> / \$239<sup>95</sup><sub>CAD</sub>

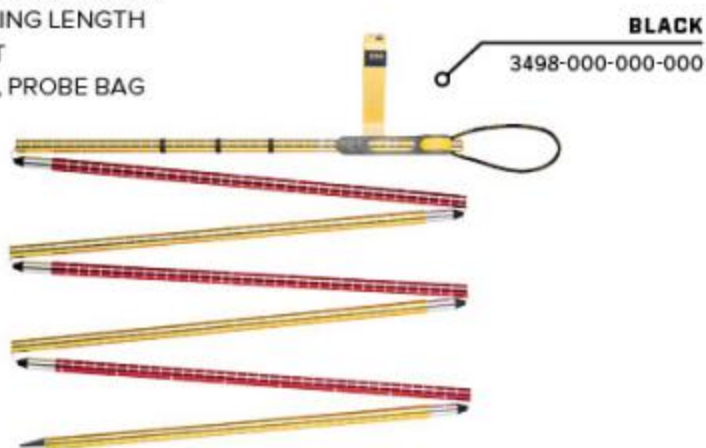

Take the guesswork out of probing with PIEPS iProbe One 260, a lightweight probe with a built-in low range beacon and longer length for snow analysis.

### PIEPS® PROBE ALUMINUM

\$69<sup>99</sup><sub>USD</sub> / \$89<sup>95</sup><sub>CAD</sub>

- EASY AND FAST ASSEMBLY OF THE PROBE
- HIGH QUALITY ALUMINUM ALLOY
- SPECIAL SPEED-CONE SYSTEM FOR QUICK EXTENSION
- QUICK-CLOSING LATCH
- COATING FOR PERFECT GRIP EVEN WITH GLOVES
- CENTIMETER SCALE
- 12.5MM DIAMETER
- 42CM COLLAPSED LENGTH
- 300CM PROBING LENGTH
- 330G WEIGHT
- PIEPS PROBE, PROBE BAG

### KLIM® BACKCOUNTRY PROBE

\$69<sup>99</sup><sub>USD</sub> / \$94<sup>95</sup><sub>CAD</sub>

When seconds count, an avalanche probe needs to be ready in an instant and tough enough for motor sports abuse. KLIM's aluminum probe is ready in an instant with a cable pull/lock that snaps the 3-meter pole's sections together in seconds and its high-quality laser-etched depth gauge gives you quick visual confirmation immediately.
