As we celebrate our 20-year anniversary, I must reflect on the changes we've seen over the last two decades. KLIM was officially established back when gas cost less than \$1.25 per gallon. Big companies were stressed about the risk of Y2K computer issues. Truck of the Year was the Chevrolet Silverado and Car of the Year was the Chrysler 300M. I was driving a 1986 Subaru. It was 1999 and we had just launched our first snow gear line and joined our first dealer.

The evolution of snowmobile technology is equally dramatic. The Polaris Indy 700 XC SP earned a Snowmobile of the Year award in 1999. Altitude compensating systems helped carburetors maintain engine performance for mountain riding. Most sleds still had trailing arm front suspension. Before we started building gear, riders simply assumed they'd eventually get cold and wet. It's easy to see how much has changed just in the last 20 years.

Some things, however, haven't changed at all.

As a company of riders, the core of what we do at KLIM remains unchanged. Our focus is on addressing rider needs and solving pain points. Simply put, it is our mission to create gear that enhances the riding experience. Our team drives for excellence in product and service because we believe riders shouldn't be limited by their gear.

Ultimately, we know everyone has limited time to ride so every experience should be the best it can be.

Over these two decades, testing and feedback have continually taught us what works and what doesn't. One of the greatest resources for driving product development comes from enthusiastic and dedicated customers. Listening to feedback is one of the key factors that drove success for KLIM in the early days, and it continues to play an instrumental role in crafting the best riding gear on Earth.

With this in mind, I must emphasize how much I appreciate your commitment and passion for what we do. It takes a tremendous amount of teamwork between our talented staff, our athletes, our dealers, and you, our dedicated customers, to come together and create an unbeatable riding experience. All of us at KLIM recognize and appreciate you being a part of what we do. However long you've been with the KLIM family, we're glad to have you along for the ride.

As we celebrate the last 20 years, we are extremely grateful for your commitment to KLIM.

HAVOC GTX® BOA® BOOT

\$399.99 USD | \$529.95 CAD | €460.00 EUR

We built the world's first snowbike-specific boot, the Havoc GTX® BOA®, specifically for the extreme conditions of backcountry snowbiking. We integrated the legendary MICHELIN® sole which provides unprecedented sole durability and grip. Born from years of research and experience manufacturing the most popular snowmobile boots in the industry, the Havoc blends all the best features of a snowmobile boot and an off road boot into one high performance, snowbike-specific package. The Havoc is also a perfect crossover boot for the most destructive snowmobilers.

CROSSOVER

ENGINEERED VERSATILITY.

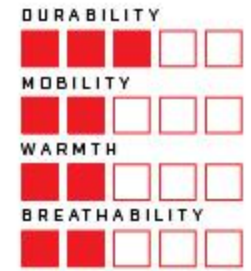

Between blasting trails and carving backcountry powder, crossover riding demands versatile, durable equipment. There's little these sleds won't handle. Crossover gear is designed the same way, engineered to adapt to your riding style and conditions. This is Crossover.

TRAIL

WIDE OPEN.

Trails and frozen lakes put riders through some of the most vicious winter elements. It's in these harsh conditions that you need gear engineered for performance without compromise. When style, all-day comfort and full-season durability are important, this is the ticket. This is Trail.

F3 SERIES

ECE

\$279.99 USD | \$369.95 CAD | €320.00 EUR

MAXIMIZE THE MINIMUM – The F3 is engineered to minimize neck fatigue and maximize impact protection.

BUILT STRONG – KLIM's all-new F3 starts a light and strong revolution in off-road style helmets. Constructed with KLIM's Structure Mapped Composite base material lay up, the F3 optimizes strength in all the right areas while reducing overall weight. The composite construction eliminates inconsistencies in hardness, resin distribution and weight.

REFINED FIT – New FID-LOCK quick-release closure simplifies entry, even with gloves on. With the F3, riders enjoy up to 10% smaller external dimensions and a sleeker, more comfortable fit from three shell sizes.

LET OFF SOME STEAM – KLIM is the industry leader in body comfort, and developing an effective intelligent ventilation system for the F3 was key. Thirteen intake vents combine with six exhaust ports to provide optimal heat dispersion even while stationary.

WIDE OPEN SPACES – The KLIM F3 Helmet features the widest, unobstructed field of view in its class, ensuring you'll never miss the epic views it takes you to.

ALL-DAY COMFORT – The KLIM F3 features the latest Custom EPS and internal liner systems to secure the rider's head completely. EPS, 3D Ergonomic cheek pads and liner foam are optimized for a great fit.

SYSTEMS CHECK – KLIM engineered the new F3 to work in conjunction with market leading neck brace technology, not against it.

EXPECTATIONS – Thanks to innovative construction techniques and premium materials, The KLIM F3 meets or exceeds the most demanding ECE and DOT standards for motorcycle helmets at reduced weight

KLIM CUSTOM FIT – Klimatek™ Fabric liner systems utilize adaptive smart foam technology and anti-microbial/bacterial fast-wicking textiles.

OCULUS

SNOW GOGGLE

The KLIM® Oculus Goggle is designed with one purpose in mind: to give you the best possible vision on the snow.

This was accomplished by addressing the three main pain points of all goggles: changing light conditions, fogging and field of vision.

The Oculus system with KLIM® Slide-Lock™ technology allows you to quickly and easily change lenses in the field to deal with changing light conditions - essentially it's like having [up to] three goggles with you in a very compact package. The included heat-formed case allows you to carry an [included] extra lens plus one upgrade lens [not included] with you on your next ride. The Oculus is engineered with the latest anti-fogging technologies such as unparalleled air circulation, massive internal air volume and the KLIM® CLEAR™ anti-fog technology. The spherical, optically correct lens design provides unprecedented peripheral vision and clarity.

OPTICS/LENSES

- QUICKLY/EASILY CHANGE LENSES IN THE FIELD WITH KLIM® SLIDE-LOCK™ TECHNOLOGY
- 1 HIGH LIGHT DUAL-PANE LENS INCLUDED

HALLA

FROM RIVER

PORT WINE

A close-up, high-angle photograph of a black tactical bag or pack. The bag features a prominent yellow logo on a black panel, which appears to be a stylized letter 'K' or 'M' inside a shield-like shape. The bag is made of a textured, durable fabric and has several compartments with zippers. The zippers are black and have pull tabs. The bag is resting on a light-colored, textured surface, possibly sand or a coarse mat. The lighting is bright, creating strong shadows and highlights on the bag's surface.
