

SNOW 2020

Klim

Trust

/trəst/ (noun)

- Firm belief in the reliability, ability, or strength of something.

Nowadays, pop culture is infatuated with living in the moment, with immersing oneself in the experience. It's interesting for me to watch as social media users tag secret locations, while others preach for unplugging from the screen. We see educators instill the importance of career plans for young students, while prolific public speakers encourage gap years and free-spirited recreation before getting serious. Through this dichotomy in postmodern thinking, it becomes clearer than ever that our team here at KLIM is on the right track, for the right reasons.

On the surface we sell gear and we all make money doing it. For some brands, that alone is enough to validate their existence and drive their process. However, as we explore the motivation behind our mission, it becomes more complex to understand why we spend so much time testing prototypes. Or before that, why we spend so much effort searching for materials. Or better yet, why we're so adamant about understanding the minute details of challenges that snowmobilers face.

Here's the thing. Snow powersports are not inexpensive. Sleds and snowbikes aren't cheap. Trucks aren't cheap and diesel adds up. Our gear isn't inexpensive either. People work really hard to afford this sport, and in some cases they work even harder to find the time to ride. We're here to make sure every single ride is the best it can be.

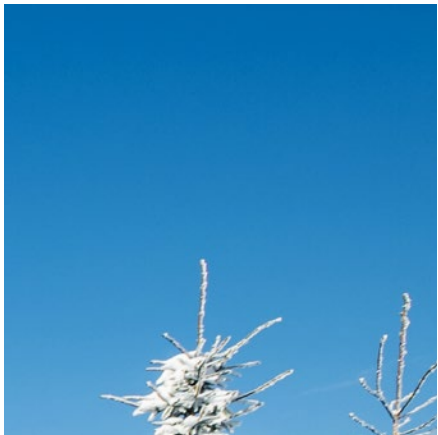

There's no dollar value you can assign to the importance of the trust people place in their gear. Trust is the result of all of our efforts coming together for the end-user. We're enabling people to share breathtaking experiences, to build incredible memories, and yes, to fully immerse themselves in the moment.

We take pride in what we do, because we help people get the most out of what brings them joy. And there are few things more powerful than bringing someone happiness.

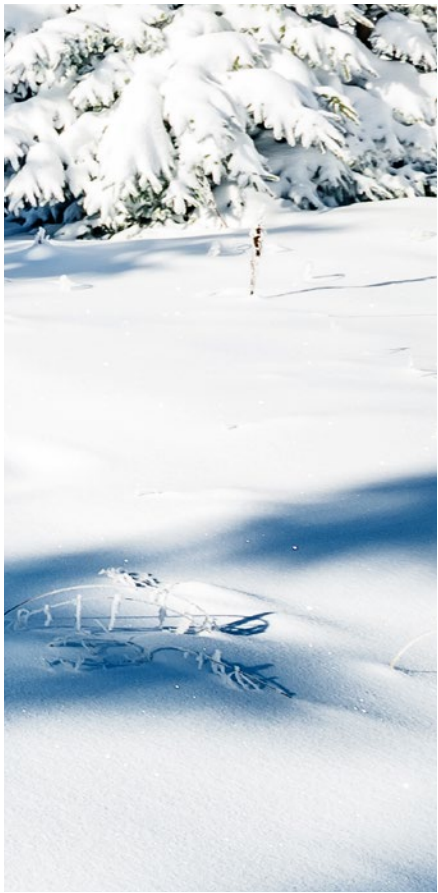

With this in mind, I must say the thing I appreciate most about our brand is the teamwork that goes into everything we do. Our talented staff, our athletes, and you, our dedicated dealers, are the people who ultimately provide the customers a brand in which they can trust. It wouldn't be possible to build and support this brand without strong retailers. All of us at KLIM recognize and appreciate everything we have accomplished together over the last two decades, and look forward to the future.

As we help people live their passion to the fullest, we thank you for your commitment to KLIM.

COMMAND CENTER

Built to optimize your experience through a balance of protection, comfort, and performance-focused attributes that help you command your ride. Your decisions are made from inside the helmet and behind goggles, where your attention can't be compromised. The moment that matters most is the one you command.

NEW COLORWAYS

REGULAR - \$649.99 USD | \$869.95 CAD | €750.00 EUR

Built on the F5 chassis and adding to its engineered capability to provide all-day comfort, the F5 Koroyd adds safety and ventilation technologies to provide protection, reduced weight and enhanced ventilation and carries the DOT certification for on-road use. Challenging long-held industry methods, the F5 is leading the way in head protection technology and providing the best possible riding experience.

Koroyd® is a next generation energy absorbing technology, engineered with a unique structure and innovative energy management properties. When impacted the Koroyd cores crush homogeneously, decelerating the energy from the impact.

MIPPS® brain protection system is a low-friction layer designed to reduce rotational motion from angled impacts to the head.

• **Maximize the Minimum** – The F3 is engineered to minimize neck fatigue and maximize impact protection.

• **Built Strong** – KLIM's all-new F3 starts a light and strong revolution in off-road style helmets. Constructed with KLIM's Structure Mapped Composite base material lay up, the F3 optimizes strength in all the right areas while reducing overall weight. The composite construction eliminates inconsistencies in hardness, resin distribution and weight.

• **Refined Fit** – New FID-LOCK quick-release closure simplifies entry, even with gloves on. With the F3, riders enjoy up to 10% smaller external dimensions and a sleeker, more comfortable fit from three shell sizes.

• **Let Off Some Steam** – KLIM is the industry leader in body comfort. And developing an effective intelligent ventilation system for the F3 was key. Thirteen intake vents combine with six exhaust ports to provide optimal heat dispersion even while stationary.

• **Wide Open Spaces** – The KLIM F3 Helmet features the widest, unobstructed field of view in its class, ensuring you'll never miss the epic views it takes you to.

• **All-Day Comfort** – The KLIM F3 features the latest Custom EPS and internal liner systems to secure the rider's head completely. EPS, 3D Ergonomic cheek pads and liner foam are optimized for a great fit.

• **Systems Check** – KLIM engineered the new F3 to work in conjunction with market leading neck brace technology, not against it.

• **Expectations** – Thanks to innovative construction techniques and premium materials, The KLIM F3 meets or exceeds the most demanding ECE and DOT standards for motorcycle helmets at reduced weight

• **KLIM Custom Fit** – Klimatek™ Fabric liner systems utilize adaptive smart foam technology and anti-microbial/bacterial fast-wicking textiles.

A close-up, slightly blurred photograph of a snow-covered evergreen tree. The branches are heavily laden with white snow, and some green needles are visible. In the lower-left corner, the front end of a snowmobile, including its handlebars and a blue fairing, is partially visible, suggesting the viewer's perspective is from the rider. The background is a soft, out-of-focus white, likely a snowy slope or sky.

MOUNTAIN

AGGRESSIVE FREEDOM

In remote, rugged, backcountry terrain there's only one way to dominate the snow. Premium comfort and durability ensure demanding conditions become epic experiences. Engineered for adaptability and resilience through waterproofness, breathability and layering to create the ultimate snowmobile experience. This is Mountain.

We built the world's first snowbike-specific boot, the Havoc GTX® BOA®, specifically for the extreme conditions of backcountry snowbiking. We integrated the legendary MICHELIN® sole which provides unprecedented sole durability and grip. Born from years of research and experience manufacturing the most popular snowmobile boots in the industry, the Havoc blends all the best features of a snowmobile boot and an off road boot into one high performance, snowbike-specific package. The Havoc is also a perfect crossover boot for the most destructive snowmobilers.

The background of the advertisement is a photograph of a winter mountain scene. In the foreground, a snowmobile is partially visible on the right side, with a red handlebar grip and a yellow flag. The snowmobile is kicking up a cloud of white snow. The middle ground is filled with snow-covered evergreen trees. In the background, a range of snow-capped mountains is visible under a clear sky.

CROSSOVER

ENGINEERED VERSATILITY.

Between blasting trails and carving backcountry powder, crossover riding demands versatile, durable equipment. There's little these sleds won't handle. Crossover gear is designed the same way, engineered to adapt to your riding style and conditions. This is Crossover.

TRAIL

WIDE OPEN.

Trails and frozen lakes put riders through some of the most vicious winter elements. It's in these harsh conditions that you need gear engineered for performance without compromise. When style, all-day comfort and full-season durability are important, this is the ticket. This is Trail.

RIFT JACKET

NEW

REGULAR - \$399.99 USD | \$539.95 CAD | €460.00 EUR
3XL - \$429.99 USD | \$579.95 CAD | €495.00 EUR

In pursuit of enhanced winter safety, we've engineered the Rift Jacket to offer floatation assistance, protection and comfort in the extreme conditions trail riders face. This is the first float assist GORE-TEX jacket in the world and it doesn't need to be used with floatation bibs to work properly. Ascent Float Technology (AFT) is a flexible, breathable closed cell foam that we integrated in specially mapped channels that offer floatation benefits without compromising mobility and comfort. AFT foam doesn't absorb water and provides significant insulating properties for warmth on top of the standard insulation. The Rift Jacket is a comprehensive trail snowmobile jacket for riders looking to maximize every winter riding experience.

The background of the advertisement is a blurred photograph of a ski race. In the foreground, the lower right corner shows a close-up of a ski binding and the tip of a ski. The background is filled with spectators, some wearing winter gear, and several tall, thin flags or banners, one of which has a yellow star. The overall scene is dynamic and captures the energy of a competitive event.

A full-page photograph of a winter mountain scene. In the foreground, several evergreen trees are heavily laden with snow. To the left, a bare, snow-covered branch reaches into the frame. The middle ground is dominated by a large, smooth snowdrift that has partially buried the trees. In the background, a snow-capped mountain ridge stretches across the horizon under a clear blue sky with a few wispy clouds. The overall lighting is bright, suggesting a sunny day.

\$189.99 USD | \$259.95 CAD | €220.00 EUR

The insulated Override Jacket is a mid layer with exceptional breathability, which avoids causing a stuffy sweaty feeling without introducing so much airflow that body heat escapes. The result is a highly breathable mid layer suited for high-output physical activity and adds warmth to any outer shell. In fact, we had to stop employees from taking home all of our pre-production testing jackets – they're that good.

- HIGH PERFORMANCE BREATHABLE MID LAYER
- 20D RIPSTOP NYLON SHELL FABRIC IS LIGHTWEIGHT, BREATHABLE
- 60G 3M™ THINSULATE™ INSULATION
- DWR TREATMENT FOR SHEDDING WATER DROPS
- IDEAL FOR LAYERING UNDER GORE-TEX SHELL

VERRIDE ALLOY JACKET

NEW

\$149.99 USD | \$199.95 CAD | €170.00 EUR

If mullets were serious business, this would be the mullet version of the Override Jacket. The Override Alloy Jacket uses the high performance chassis and insulation from the Override, but replaces the back and underarm panels with highly breathable, moisture wicking fleece. This is the ultimate mountain mid layer solution, taking the chill away from your front without adding unnecessary bulk to the back – all with massive breathability and moisture wicking effects to keep you comfortable. Business in the front, party in the back.

- HIGH PERFORMANCE HYBRID BREATHABLE MID LAYER
- 20D RIPSTOP NYLON SHELL FABRIC IN FRONT AND ARMS
- GRID-BACK FLEECE BACK AND UNDER ARMS FOR EXTREME BREATHABILITY, LOW BULK
- GRID-BACK FLEECE WICKS MOISTURE AND PROVIDES COOLING AIRFLOW
- DWR TREATMENT FOR SHEDDING WATER DROPS
- BREATHABLE MOISTURE WICKING LINING
- IDEAL FOR LAYERING UNDER GORE-TEX SHELL
- 3M™ SCOTCHLITE™ C790 CARBON BLACK REFLECTIVE
- 2 ZIP HAND POCKETS
- STRETCH FABRIC CHASSIS FOR COMFORT AND MOBILITY
- 60G 3M™ THINSULATE™ SYNTHETIC INSULATION IN FRONT AND ARMS
- LIGHTWEIGHT INSULATION IS HIGHLY COMPRESSIBLE, HYPOALLERGENIC, HIGHLY WATER RESISTANT FOR WARMTH WHEN WET
- INNER ZIPPER STORM FLAP
- GRID-BACK FLEECE LOW PROFILE CUFFS IDEAL FOR LAYERING
- LOW PROFILE STRETCH BOTTOM HEM
- ZIPPER GARAGE FOR NEXT-TO-SKIN COMFORT

VERRIDE ALLOY PANT

NEW

\$149.99 USD | \$199.95 CAD | €170.00 EUR

The Override Alloy Pant is the comfortable, highly functional mid layer pant that'll make you wonder, "why didn't I get one sooner?" The top half is highly breathable stretch fabric and lightweight synthetic insulation for warmth, while the lower legs are grid fleece for low bulk and easy layering inside boots and a GORE-TEX shell. This hybrid design is ideal for heavy physical activity, and the casual jogger aesthetic means you won't worry about being seen outside the gas station.

- HIGH PERFORMANCE HYBRID BREATHABLE MID LAYER PANT
- 20D RIPSTOP NYLON SHELL FABRIC UPPER HALF

RESISTOR HTD GAUNTLET GLOVE

NEW

\$249.99 USD | \$339.95 CAD | €290.00 EUR

Take your cold weather adventures to new “lows” with the Resistor HTD Gauntlet Glove and it’s intuitive 3-level heating system. The heating filaments are durable while long lasting lithium-ion batteries ensure consistent heating for your hands and fingers. The high heat mode runs for 10 minutes and automatically switches to medium heat to preserve batteries and avoid overheating your hands. The heating element covers your backhand and fingertips, providing full hand heat when used with heated grips on a snowmobile.

BACKCOUNTRY SHOVEL REDESIGNED

\$79.99 USD | \$99.95 CAD | €95.00 EUR
5065-001-000-000

The Backcountry Shovel is engineered for fast deployment with robust construction to perform in emergency avalanche situations. In a chaotic environment where seconds matter, intuitive features allow for quick, self-locking deployment so you don't have to fuss with small buttons. The aggressive blade is designed to efficiently cut into snow and easily switches between digging (shovel) position and chopping (hoe) position. A more compact size also allows the Backcountry Shovel to fit in a wider range of avalanche backpacks.

- FAST, DURABLE AVALANCHE SHOVEL WITH INTEGRATED CHOP/HOE MODE
- QUICK-DEPLOY SELF-LOCKING SYSTEM FOR SPEED UNDER STRESS
- FLARED BUTTON ENTRY AND BALL DETENTS FOR QUICK HANDS-FREE DEPLOYMENT (SIMPLY PULL TO EXTEND SHOVEL)
- EGG-PROFILED SHAFT FOR GRIP AND CONTROL, AVOIDS SPINNING IN HAND

POP & MERCHANDISING

UTILIZE KLIM'S AVAILABLE POP IN ALL AREAS. FOR THE ENTIRE POP CATALOG, PLEASE GO TO THE KLIM RESOURCE WEBSITE AT [PORTAL.KLIM.COM](http://portal.klim.com)

- Using our POP not only displays our product in a consistent and clean fashion, it helps anchor valuable retail space.
- Our POP is designed to maximize the use of space and product placement.
- POP also helps keep the product display consistent when you are not in the shop.
- Klim Technical Riding Gear is providing a complete "package" for you (The Technical Apparel Specialist). From sales presentations to the merchandising of our products on the floor.
- Get creative - work to go above and beyond.
- A half empty rack looks unattended and also prevents sales due to lack of size runs.
- If you need to rotate product out to keep a shelf from looking stagnant do it.
- Remember to "front face" all merchandise toward the main traffic area and create a "captivating draw" into the display.
- Every time you step into a new dealer, POP is, and should be, part of your presentation. Consistent review of the merchandising and rotation of product was proven to be an effective method of increasing sales. Do it often, it will make a difference!
- Use lighting to help draw attention.
- Train, Educate, Train Again.
- Create a Walkway.
- When given a path, customers will follow it!! Walkways need to be clear and at least 42" wide...but keep it short (less than 16ft).
- On slat wall: start at eye level and "build up".
- Highest dollar items at eye level.
- Mid price items at top.
- Lower price items on the bottom.
- Display by Category! GoreTex, Women's Wear, Casual, etc.
- Simplify through Differentiation.
- Don't be afraid of color. Use the bright colors to draw the eyes of customers and keep the area feeling fresh.
- Color blocking is the arrangement of all like colors together which achieves a more pleasing overall look and strengthens the look with bands of colors grouped together. Proper color blocking will enhance the look and feel of the display and avoid a "cluttered" and distasteful "feel".
- Create a virtual head to toe representation.
- Helmet - Apparel - Gloves: Help the customer visualize the whole package.
- Mannequins are an excellent way to achieve the head to toe showcase and also claim more valuable real estate within the shop.
- Is there a "high impact" area of the store? Where is traffic flow the heaviest?
- Keep all of the KLIM product merchandised together. If a customer is looking for KLIM it will all be available in one spot. Ideally we would create a "store within a store" to maximize the branding potential.

MINIMUM ADVERTISED PRICE [MAP] POLICY (US & CANADA)

PROTECTING THE KLIM® BRAND & YOUR MARGINS

- KLIM Authorized Dealers are required to adhere to the following policies pursuant to the Master Dealer Agreement.
- Authorized KLIM dealerships are not allowed to sell KLIM products to anyone or any company that has the intent to re-sell KLIM products to a third party unless the third party is an authorized KLIM dealer.
- KLIM Advertising and Resale Policy:
- For KLIM to effectively compete in our chosen markets, properly position KLIM's products in the marketplace, and preserve KLIM reputation for providing high-value products and premium support, KLIM must exercise control over the distribution of KLIM products. Therefore, all sales of KLIM products will be subject to this Distribution and Advertising Policy.
- Each KLIM reseller is free to independently establish resale prices and advertising campaigns. However, KLIM will, without assuming any liability, cancel all orders and will refuse to accept any new orders from any reseller immediately following KLIM verification to its satisfaction that such reseller has intentionally advertised* any KLIM product at a net retail sales price** less than the minimum retail price established and announced by KLIM from time to time (the "MSRP"). KLIM reserves the right to review each infringement on an individual basis and govern reinstatements subjectively.
- The following will also be considered a violation of this Policy:
- Advertising that invites a prospective purchaser to contact the reseller in any way, or add an item to a virtual cart or bin, to learn the price of any KLIM product (suggesting that KLIM products are being offered at less than MSRP); and
- Advertising that bundles a KLIM product with any other product, coupon, or other item at an advertised price that results in the effective advertised price for the KLIM product being less than the MSRP of that KLIM product; and Loyalty programs*** that
- 1. Offer a sliding percentage discount that may be applied to KLIM products (must be a fixed percentage or amount based on a previous purchase)
- 2. Are transferable (program must apply to only the unique original customer) and
- 3. Directly or indirectly feature or mention KLIM products (if any brand is specifically excluded from an implied discount, the KLIM brand must also be conspicuously identified in that exclusion).
- This Policy applies to first-quality goods only. It does not apply to distressed merchandise and close-outs as clearly identified by KLIM. All "non-current model" KLIM products must be posted as "non-current" product or post the manufacture year of the product for all advertisements. This Policy also does not apply to advertising in a reseller's physical store(s). It may be modified at any time by KLIM without notification, and the MSRP may be affected periodically by promotions authorized by KLIM or during promotional periods designated by KLIM.
- The MSRP for all products will be posted and distributed by KLIM annually and updated as seen fit by KLIM. The MSRP of each KLIM product is stated on KLIM's website at www.klim.com.
- KLIM neither solicits, nor will it accept, any assurance of compliance with this Policy. Nothing in this Policy shall constitute an agreement between KLIM and any reseller that the reseller will comply with this Policy.
- All questions regarding the interpretation of this Policy must be directed to your account manager.
- * For purposes of this Policy, "advertised" means any advertising through any media (other than advertising in the reseller's physical store(s), and includes, but is not limited to, advertising in newspapers, magazines, brochures, direct mail, fliers, television, radio, email, internet sites, or any link to any web-based shopping cart.
- ** For purposes of determining whether or not a reseller has complied with this Policy, the value of any "free" or
