2017

RIDING GEAR // ACCESSORIES // GARAGE

TO BE THE BEST, YOU JOIN FORCES WITH THE BEST.

The 2017 Polaris Engineered™ Riding Gear puts in overtime to keep the elements at bay, and enhancements to fit and material bring you deeper into the riding experience. From the top of the summit to wind-swept trails – every piece of apparel has been designed with your environment in mind. We test everything at our Apparel Center of Excellence in Rigby, Idaho so you can ride with confidence knowing it's been put through its paces and is worthy of anything you can throw at it.

THE ART OF LAYERING

Properly preparing for the day's riding conditions is key to staying warm, staying dry and being as comfortable as possible. It comes down to moisture management, insulating warmth, and protection from the elements.

LOOK FOR THE FOLLOWING INDICATORS THROUGHOUT THIS BOOK TO IDENTIFY THE BEST LAYERING GEAR.

BASE LAYER

Helps control your body temperature by wicking away moisture. Polyester works best; once cotton gets wet it stays wet.
PGS. 24, 29

INSULATING LAYER

Works to pull moisture away while keeping body heat in. Polyester and fleece are ideal.
PGS. 26, 29

OUTER LAYER

Regulates your temperature by venting moisture and blocking out wind, snow and water.
PGS. 4-13

STAY DRIER

Trusted around the globe by millions, Gore-Tex® fabric is guaranteed to keep you dry by deflecting moisture and wind without compromising breathability.

RIDE SAFER

Proven in every weather condition, patented Scotchlite® Reflective Material radiantly bounces light back at its source so you'll always be seen.

3M Scotchlite™
Reflective Material

BE WARMER

Thinsulate™ Insulation is the gold standard in high-tech microfiber warmth, working to deflect and diffuse cold air before it reaches your body.

3 STEPS TO A PERFECT FIT

INNER LINING

Make sure the inner lining fits snugly around your head without causing pain.

MOVEMENT

Move the helmet side to side. Your scalp should move with it

CHINSTRAP

Check with your finger, if proper tightness, finger shouldn't fit between chin and strap.

THE IMPORTANCE OF OWNING A LENS FOR EVERY LIGHT CONDITION.

BRIGHT LIGHT

SMOKE + BLUE

- Cut down brightness without distorting color
- Reduce eyestrain

FLAT LIGHT

YELLOW + GOLD

- Enhances flat-light terrain definition
- Delivers superior depth perception

LOW LIGHT

ROSE + CLEAR

- Delivers superior low-light visibility
- Increases contrast in cloudy conditions

COATINGS

MIRRORED COATING

- Reduces glare by reflecting light
- Maintains visibility of LCD readouts
- Paired with lighter tints to offset darkening

POLARIZED LENSES

- Substantially reduces glare and blinding
- Blocks horizontal light waves
- Decreases eyestrain

Polarized Smoke

"I always carry a few sets of spare goggles while riding in various lighting conditions from day to night."

– CODY J. | PASSIONATE POLARIS® RIDER

SEE PAGE 36 FOR STORAGE SOLUTIONS

GOING THE DISTANCE STARTS HERE

For years, dedicated riders have seen Polaris® as the hallmark of backcountry, trail and racing innovation. With the same commitment to excellence, we're proud to release our newly perfected apparel line for 2017. With modern technology and unrivaled performance at the core of design, our riding gear gives you the confidence to stay out longer and go where you've never gone before.

"I love my Switchback® Assault®, and my new Polaris® riding gear. It's super comfortable, flexible, and fits right. You won't catch me wearing anything else."

— NICK B. | PASSIONATE POLARIS® RIDER

"Being able to carry riding necessities in an organized purpose-built bag is key. Lock & Ride® technology allows you to take any Polaris Engineered® signature Burandt storage bag on and off in a matter of seconds."

— CHRIS BURANDT | TERRAIN DOMINATOR

SPACIOUS STORAGE. UNRIVALED INTEGRATION.

Plan for anything, so you can take on everything. With the Premium Lock & Ride® Backcountry Tunnel Bag, you get 32 L of storage space to bring all-day riding essentials and more. The Backcountry gives you a water resistant design with an airflow channel between the mount and the bag to effectively reduce heat from the tunnel.

★ TOP SELLER PREMIUM LOCK & RIDE® BACKCOUNTRY TUNNEL BAG

- Lock & Ride® system allows for easier installation & improved locking strength
- Reinforced high density EVA compression mold provides high impact resistance and extreme tunnel protection
- Main storage compartment is 32 L and allows for a customized configuration with Velcro® adjustable dividers to keep gear in place during the ride
- Lid features a snow gasket preventing moisture from entering inside the storage compartment keeping valuables dry
- Bottom is designed with air flow channel to reduce heat between the tunnel and bag

FIND YOUR PERFECT SIGHTLINE

Blend protection and style with the right windshield built just for the type of riding you do most.

TECHNOLOGY

SEE WHAT YOUR SLED CAN DO

Everything you need – front and center. With the Polaris® Interactive Digital Display technology, you can easily plan your trips, be informed of vehicle needs, and stay posted on your calls and messages. So safely keep your phone in your pocket, always make it back to the lodge and make fumbling with maps a thing of the past.

POLARIS® INTERACTIVE DIGITAL DISPLAY (PIDO)

NEW FEATURES

- Brighter, easier to read screen
- GPS Course up or North up with rotating background map capabilities allow for more user preference flexibility
- GPS Go-to function with distance allows for countdown mileage to a selected waypoint to be shown on Map screen
- Exporting capabilities for created tracks and waypoints from the display to USB Drive
- TPS, RPM, Ground speed playback for up to 1:30 seconds to easily change clutching specifications for riding elevation changes

STANDARD FEATURES

- 4.3" full-color LCD readout for premium clarity
- Real-time gauge with speed, RPM and average MPG
- Incoming calls and texts, cell battery life and signal
- Toggle through display modes with left hand controls

» 2881554 | 9876 SEK

PRO-RIDE® PIDO INSTALL KIT

» 2880495 | 1446 SEK

Requires Ultimate Defrost Bag (2879090)

PRO-RIDE®

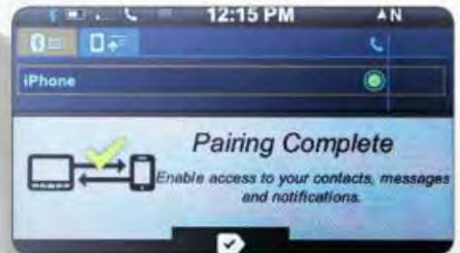

ULTIMATE DEFROST BAG

» 2879090 | 1840 SEK

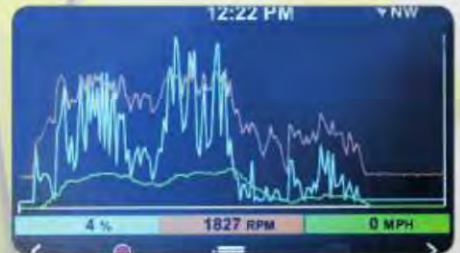

PRO-RIDE®

GPS connectivity offers exact location information including elevation, latitude/longitude and compass bearings

Bluetooth® functionality allows you to see your missed calls and text messages on the display

TPS, RPM and ground speed playback for up to 1:30 seconds to easily change clutching specifications

DON'T HAVE AN ELECTRIC START?

For a better experience with no electric start, install Battery Kit (2882200)

Advantages with this kit include:

- Maintain GPS lock when you start your sled back up. (without battery kit satellite will need to relocate which can take up to 30 seconds while moving.)
- Display will not shut down and reboot every time your sled is shut off.
- Display has ability to run while sled is turned off which allows you to use the screen while topped.

NEW A POLARIS® MESSAGE CENTER (MC) GAUGE

- 25% larger display area than older gauge design
- Large, easy to read LCD screen measure 4.3"
- Convenient scrolling message capabilities communicate vehicle information
- External vertical warning lights relays information at a glance
- Two back screen color options (red or blue)

» 2882119 | 2628 SEK

ALL POLARIS® COMPOSITE SKIS

FITS ON GRIPPER, PRO-FLOAT, PRO-STEER® SKIS

CARBIDE WEAR STRIPS

CHOOSE YOUR STYLE:

60° CARBIDE

- Ideally for more aggressive riders on hard pack snow or ice.
- Penetrates deeper but dulls faster as more weight is focused on the carbide edge.

90° CARBIDE

- Perfect for riders who desire increased control but value the longevity of a slowly dulling carbide to one that etches more aggressively.

CHOOSE YOUR LENGTH:

3" - 4" CARBIDE

The most common length of carbide, perfect for sleds with a 121" track with 96 studs or less or sleds with 1" lugs taking corners at moderate speeds.

6" CARBIDE

Ideal for high performing sleds in the 136" track range with up to 11 1/4" lugs or a shorter track sleds with more than 96 studs.

8" CARBIDE

Best for ultimate performance sleds with a 144" track or longer with paddles and/or the maximum amount of studs.

TRAIL TRACKS

RIPSAW II / **NEW** RIPSAW II 1.5

- Tapered outside lug edges for less side bite when cornering
- Sharp angled lugs for excellent bite on hard-pack snow
- Cupped center and full outer lugs for traction on loose, less compacted snow
- Lug design generates less noise for improved rider comfort on hard-packed groomed trails
- Available in 1.25" and 1.5"

CROSSOVER TRACKS

BackCountry

BackCountry X

BACKCOUNTRY / BACKCOUNTRY X

- Arched lug design with staggered snocross-inspired pattern for excellent soft snow traction
- 2.52" drive pitch for BackCountry, 2.86" and 3" drive pitch for BackCountry X
- New for 2015, BackCountry X 2.86" drive pitch models will feature tapered lug on outside edges for improved durability
- Now available in 3" drive pitch for BackCountry X

BACKCOUNTRY X2

- Arched lug design with staggered snocross-inspired pattern for excellent soft snow traction
- Rigid lug support columns and optimized rubber compound to deliver great on/off-trail performance
- 2.86" drive pitch

"A new track is an effective and affordable way to breathe new life back into your sled, boosting performance to revive your ride and make the most out of winter."

-JASON DAVIS | CASMO SNOW DIRECTOR

CROSSOVER TRACKS CONT'D

COBRA 1.6

- Cupped lugs for superior acceleration and braking in loose soft snow conditions
- Flexible lug design for superior off-trail performance
- Designed for ICE Technology, select lugs are more rigid for traction on hard-packed snow performance

ICE COBRA 1.6

- Factory pre-studded ICE Technology with the optimal lug height for on/off-trail riding
- Cupped lugs for superior acceleration and braking in loose, soft snow conditions
- Flexible lug design for superior off-trail performance

DEEP SNOW TRACKS

NEW SERIES 7

- Polaris exclusive
- Ideal track to provide lift in the deepest, softest snow conditions
- Features a new lightweight single-ply design optimized for weight and powder snow performance

NEW SERIES 6

- Outstanding traction and control in deep snow
- Lugs provide tremendous flotation and great performance
- 2.6" lugs provide outstanding traction in all deep snow conditions
- Design provides outstanding flotation and control

SERIES 5.1

- Industry-leading deep powder track; for 8T Drive sprockets, 2.86" pitch
- Optimized lug pattern producing 19% more forward lug contact compared to our Series 5.0 track
- Soft and flexible tips for superior performance in deep snow

NEW PEAK 2.25

- Delivering unrivaled acceleration on hardpack snow with designed lift and flotation for deep powder
- A great all around track for those who need the acceleration and traction of a stiffer lug with the flotation and lift

SERIES 4

- The standard in 2" deep snow tracks; for 8T Drive sprockets, 2.52" pitch
- Equal parts versatility and durability
- Stiff lug base for long wear and hard-pack performance
- Soft and flexible tips for superior performance in deep snow

CHALLENGER X3

- Single-ply construction, 3" drive pitch and advanced molding technology make it the lightest in its category
- Lug geometry and support columns allow lug cup and flex action for unmatched flotation
- 174" and 156" models now available

PEAK 5

- Angular lugs bite big and funnel snow under snowmobile for outstanding flotation
- Available with soft lugs for powder snow and hard lugs for heavy/wet snow
- Outer lug bars deliver better lateral control for improved handling

CHALLENGER 3.2

- Saw tooth lug design for improved traction & control on packed snow
- 3" drive pitch and advanced molding technology make it the lightest in its category
- Lug geometry and support columns allow lug to cup and flex for unmatched flotation

CANVAS COVERS

These durable Canvas Covers provide outstanding protection for your favorite sled when it's being towed, parked overnight or stored in the off-season.

MATERIAL: Rugged, durable 10 oz. canvas, treated to repel water and prevent UV degradation

PREMIUM POLYESTER COVERS

These durable covers protect the sled from the elements to keep it looking good and performing at its best. These covers are ideal for overnight protection, when the sled is stored between rides and during trawling.

MATERIAL: Durable black polyester construction

Canvas

THE IMPORTANCE OF PROTECTING YOUR SLED

Shield your sled from harsh elements and harmful UV rays using a premium polyester cover, ideal for overnight protection and trailering, or a canvas cover for towing and off-season storage.

2017 COVERS

NEW PREMIUM POLYESTER COVERS

- Polyester construction provides extremely durable protection from the elements; especially trailering
- Fits full range of windshield heights
- Includes integrated straps and hardware
- Coated to repel water and UV degradation

NEW CANVAS COVERS

- 10 oz. canvas construction provides durable protection from the elements
- Fits full range of windshield heights
- Coated to repel water and UV degradation
- Form-fitting elastic cinch design

NEW UNDERCOVER

- Made to go under Polaris snow covers to provide an additional level of protection
- Fabric provides softness to help minimize cosmetic damage caused by chaffing
- Easy to install / remove
- Works well as a dust cover when machine is stored inside
- The undercover is separate from the cover which allows it to be kept clean by machine washing. We recommend using a washing machine bag to contain the elastic and hooks, air dry.

POLARIS® SNOWMOBILE DRIVE BELTS

POLARIS ENGINEERED™ BELTS DELIVER SUPERIOR PERFORMANCE FOR YOUR RIDE, WHETHER IT'S BRAND-NEW OR EXPERIENCED ON THE TRAILS. OUR ENGINEERS ARE EXPERTS ON MAKING POLARIS® MACHINES OUTPERFORM THE REST.

POLARIS ENGINEERED™

"We produce the most effective and efficient drive system for Polaris® snowmobiles by holding our belts to extremely high standards that no aftermarket company can match."

— JOEL S.,
SNOW DRIVE BELT ENGINEER

STANDARD = GOOD

- Good trail belt for lower horsepower engines
- Best suited for low-speed operation
- Single Cog

KEVLAR® = BETTER

- CNC cut edges belt
- Short break-in period
- Dual Cog

PBO = BEST

- Extreme-duty belt; longest service life
- CNC cut edges on each belt
- Longer break-in period
- Dual Cog

FIND THE RIGHT BELT FOR YOUR MACHINE IN OUR ONLINE PARTS CATALOG AT POLARIS.COM

*Belt dimensions are given in nominal dimensions. There is a +/- variance for all critical dimensions. Clutch setup must be inspected when a new belt is installed and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive belt deflection (tension), clutch offset and alignment must be adjusted properly. See your Service Manual for further details on drive belt measurement inspection.

HOS DIN LOKALA ÅTERFÖRSÄLJARE

POLARISKORTET
DEL BETALNING UPP TILL
24 MÅNADER
PÅ TILLBEHÖR, KLÄDER,
RESERVDELAR OCH SERVICE

BETALA RÄNTEFRITT I DIN EGEN TAKT

Med Polariskortet har du möjlighet att dela upp din betalning för tillbehör, reservdelar, kläder samt servicekostnader. Du väljer själv delbetalningsalternativ utifrån vad som passar dig bäst: räntefritt, lägre månadskostnad eller några månader betalningsfritt. Delbetalning erbjuds i samarbete med Santander Consumer Bank.

ETT KORT MED FÖRDELAR

När du ansöker om räntefri delbetalning får du ett MasterCard. Med Polariskortet handlar du alltid lika förmånligt hos oss. Dessutom har du alltid upp till 60 dagars räntefri kredit på allt du betalar med kortet överallt i världen.

ENKEL ANSÖKAN - DU FÅR SVAR DIREKT

Du ansöker enkelt hos någon av våra återförsäljare eller direkt på nätet genom tjänsten Köpklar. Du får svar på din ansökan inom några minuter.

KÖPKLAR

Ansök om delbetalning på webben och ha det klart när du kommer till din återförsäljare.

Du ansöker enkelt genom att fylla i alla uppgifter i ansökan och välja delbetalningsalternativ. Du får svar direkt efter sedvanlig kreditprövning. Din ansökan är giltig i en månad, så när det passar dig bäst går du till din återförsäljare, handlar det du vill och avslutar din ansökan – glöm inte att ta med din legitimation.
