LOCK & RIDE®

***PERFECT FIT.
EASY ON & EASY OFF.***

Lock & Ride® functionality delivers the perfect solution for attaching accessories to your sled. Thanks to its patented securing system, you can mount and unmount without the need for any tools, and you know the fit will be perfect every time.

YOUR OWN

Polaris Engineered Accessories™ are engineered alongside your sled, so they're ready to dominate any terrain. From bags and racks to bumpers and windshields, we produce a complete line of perfect-fitting accessories.

POLARIS®

ENGINEERED PARTS
ACCESSORIES & APPAREL

**THE PARTS AND ACCESSORIES IN WHICH YOU RELY ON
ARE ONLY AS GOOD AS THE ENGINEERING BEHIND IT.**

That's how every Polaris Engineered™ part and accessory becomes a natural extension of your riding experience. We meticulously design, test, and optimize everything we create until it's right for you. From modern style, fit and finish, to seamless integration and perfect functionality. Your sled isn't finished until you ...

WINDSHIELDS

FIND YOUR PERFECT SIGHTLINE

Blend protection and style with the windshield built just for the type of riding you do most.

FULL COVERAGE

EXTRA TALL

TALL

MID

DEEP SNOW MID

LOW

TALL

The choice when you want maximum wind protection. Perfect for riders who ride in colder conditions often.

MID

Best of both worlds: a clean look for your sled, yet also offers wind protection for colder days.

LOW

For a sleek, clean look on your sled. Does not affect vision in any way. Great for riders who stand up most of the time.

WINDSHIELDS

Blend protection and style
and find your ideal sightline

PIDD INSTALL KIT

AXYS | 2880493

All AXYS*

PRO-RIDE | 2880495

Requires lo-pro Defrost Bag (2879090)

DON'T HAVE AN ELECTRIC START?

For a better experience with no electric start, install:

PIDD POWER UP KIT

2882200
BATTERY SOLD SEPARATELY (4016625) ON P. 33

Advantages with this kit include:

- Maintain GPS lock when you start your sled back up. (without battery kit, satellite will need to relocate, which can take up to 30 seconds while moving)

- Display will not shut down and reboot every time your sled is shut off
- Display has ability to run while sled is turned off, which allows you to use the screen while stopped

PROTAPER® HANDLEBAR WITH HEATED GRIPS

- ProTaper® handlebar allows riders to customize their handlebar height for their riding style
 - Handlebar hooks sold separately (2872482-070)

RIDECOMMAND™

STAY CONNECTED

SEAMLESSLY ENHANCE YOUR SNOWMOBILING EXPERIENCE

Ride Command™ revolutionizes the snowmobiling experience by connecting you with your friends, your sled, and your device. You can plan rides, coordinate with friends before, during, and after your ride, and share the experience.

To download the RIDE COMMAND™ APP for free, text SNO1 to 82350

CONNECT YOUR DEVICE

Create a group using the Polaris Ride Command app
Share the snow with fellow riders by inviting a group via social media, text, or email
Pick a leader in your group to set the "Follow the Leader" feature so you don't get lost on the trail

CONNECT YOUR FRIENDS

Track your rides and waypoints, follow your group, and view your vehicle maintenance information
View the current local weather forecast and snow depth to get ready for your ride

CONNECT YOUR SLED

View trails and update trail maps with the latest 109mm Polaris™ Interactive Digital Display
Integrates with Polaris' vehicles and the Ride Command™ app, giving you the power to monitor and analyze vehicle performance

SHOCKS DIRECTLY FROM THE FACTORY ARE CALIBRATED FOR A WIDE RANGE OF RIDING STYLES AND BODY TYPES.

Depending on which modifications you bolt on after you purchase your sled, the suspension performance may need to be improved. That is why Polaris® is ready with a multitude of suspension options for your ride. Dial in your perfect ride with offerings from trusted names like Walker Evans® and FOX® and Öhlins. Each shock is fully rebuildable and optimized for your style. Polaris® also offers other suspension and chassis tweaks like boggie wheels and sway bars.

MOUNTAIN

WALKER EVANS® AXYS® DEEP SNOW PREMIUM SHOCK

- 16-way compression adjuster to fine-tune ride through changing conditions
- Lightweight 6061 T6 extruded aluminum alloy design
- Piggyback reservoir provides increased oil and nitrogen volumes for fade-free performance
- Front track shock features an Internal Floating Piston Monotube for consistent fade-free performance
- 100% designed, engineered, and manufactured in the U.S.A.
- Fully rebuildable and revalveable

OPTIMIZING TRACTION AND CONTROL

	SKIS	CARBIDES	TRACK/STUDS
<p>MOUNTAIN</p> <p>Riders need flotation and the ability to carve in deep snow</p>	Add Gripper Skis for a deeper keel, greater flotation, and positive steering in deep, loose snow.	For added trail capability, use 102mm carbides.	Choose a track based on your sled's rail length. Run a deeper lug and more aggressive track pattern the softer and deeper the snow.
<p>CROSSOVER</p> <p>Riders want the perfect balance between on-trail performance and off-trail flotation</p>	Choose Pro-Steer Skis if you prefer more trail riding or Gripper Skis if you use trails to get to your next jump-off point.	For improved cornering while not compromising deep-snow performance, use 152mm carbides.	For perfect balance on or off the trail, choose a track with a lug depth between 34mm and 44mm. If you ride off-trail more, choose the lug depth that works for the depth of snow.
<p>TRAIL</p> <p>Aggressive trail riders who frequently encounter icy conditions will benefit from studded tracks and skis with more aggressive carbide wear bars</p>	For true trail performance, add the Polaris Engineered™ Pro-Steer Ski—specially designed with a low-profile keel.	Dual-runner carbides like the Dooly or Slim Jim reduce darting, while increasing corner performance and stability in and out of the apex.	Choose a track based on your sled's rail length and add the number of studs based on your sled model and whether you're a trail, performance, or intermediate rider.

SKIS & CARBIDES

CARBIDE WEAR STRIPS

Carbides, like other items on your sled, need to be replaced periodically because they wear down as you ride your sled on the trail. Rocks, cement, pavement, road crossings can all contribute to carbide wear.

CHOOSE YOUR LENGTH

76MM - 102MM CARBIDE

- The most common length of carbide, perfect for sleds with a 121" track with 96 studs or less or sleds with 25mm lugs taking corners at moderate speeds.

152MM CARBIDE

- Ideal for high performing sleds in the 136" track range with up to 32mm lugs or a shorter track sleds with more than 96 studs.

203MM CARBIDE

- Best for ultimate performance sleds with a 144" track or longer with paddles and/or the maximum amount of studs.

BITEHARDER® CARBIDE SHARPENER

- Designed to be used with portable drill for sharpening anywhere
 - Carbide wear bar sharpening tool for use on the trail or in the shop
 - Quickly and easily puts a fresh edge on wear bars for improved handling
 - Delivers more precise and accurate handling, especially in the corners
 - Features long lasting V-shaped, diamond-coated sharpening stone
 - Long-lasting diamond media can sharpen up to 40 wear bars
- » 2882952

CROSSOVER

- Arched lug design with staggered snocross-inspired pattern for excellent soft snow traction
- 64mm drive pitch for BackCountry, 73mm and 76mm drive pitch for BackCountry X
- BackCountry X 73mm drive pitch models feature tapered lug on outside edges for improved durability
- Now available in 76mm drive pitch for BackCountry X

LENGTH	PITCH	
304,8cm	73mm	5414894
307,3cm	64mm	2839140
348,0cm	73mm	5414895

TRAIL

- Cupped lugs for superior acceleration and braking in loose, soft snow conditions
- Flexible lug design for superior off-trail performance
- Softer, thinner lugs generate less noise for improved rider comfort

LENGTH	PITCH	
307,3cm	64mm	2839052

- Rigid lugs provide superior handling, acceleration, and braking on groomed trails
- Narrow lug base to reduce rolling resistance and maximize top speed
- Angled profiles for aggressive forward and lateral bite

LENGTH	PITCH	
307,3cm	64mm	2839968

- Tapered outside lug edges for less side bite when cornering
- Sharp angled lugs for excellent bite on hard-pack snow
- Cupped center and full outer lugs for traction on loose, less compacted snow
- Lug design generates less noise for improved rider comfort on hard-packed groomed trails

LENGTH	PITCH	
307,3cm	64mm	2839214
348,0cm	73mm	5414654

- Factory pre-studded for improved traction and control
- Lug design delivers better traction than the ICE RipperXT
- Optimized rubber compound for superior traction on groomed trails

LENGTH	PITCH	
304,8cm	64mm	2839028
304,8cm	73mm	2839190
307,3cm	64mm	2839200
348,0cm	73mm	2839191
365,8cm	64mm	2839203

MOUNTAIN

- Polaris® exclusive
- Ideal track to provide lift in the deepest, softest snow conditions
- Features a new lightweight single-ply design optimized for weight and powder snow performance

LENGTH	PITCH	
393,7cm	76mm	5415393
414,0cm	76mm	5415394
442,0cm	76mm	5415786

- Outstanding traction and control in deep snow
- Lugs provide tremendous flotation and great performance
- 66mm lugs provide outstanding traction in all deep snow conditions
- Design provides outstanding flotation and control

LENGTH	PITCH	
393,7cm	73mm	5415391
414,0cm	73mm	5415392

- Industry-leading deep powder track; for 8T drive sprockets, 73mm pitch
- Optimized lug pattern producing 19% more forward lug contact compared to our Series 5.0 track
- Soft and flexible tips for superior performance in deep snow

LENGTH	PITCH	
393,7cm	73mm	5413622
414,0cm	73mm	5413621

- Delivering unrivaled acceleration on hardpack snow with designed lift and flotation for deep powder
- A great all-around track for those who need the acceleration and traction of a stiffer lug with the flotation and lift

LENGTH	PITCH	
393,7cm	73mm	5415002

FOR THE LIFE OF YOUR RIDE

Maintenance is the key to keeping your Polaris® snowmobile performing as well as the day you bought it. Items like belts, lubricants and batteries represent only a few of these critical items engineered specifically by Polaris®.

POLARIS ENGINEERED™ DRIVE BELTS

Polaris Engineered™ belts deliver unmatched performance for your sled. Our belts are developed for and tested on all our engines, for all riding conditions to ensure it doesn't just fit your machine—it outperforms your expectations

CONTACT YOUR LOCAL DEALER FOR RIGHT BELT FOR YOUR MACHINE.

*Belt dimensions are given in nominal dimensions. There is a +/- variance for all critical dimensions. Clutch setup must be inspected when a new belt is installed and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive belt deflection (tension), clutch offset, and alignment must be adjusted properly. See your Service Manual for further details on drive belt measurement inspection.

2-CYCLE OIL SYNTHETIC VES

Approved on high output engines with Ves valves.

Properly preparing for the day's riding conditions is key to staying warm, staying dry, and being as comfortable as possible. It comes down to moisture management, insulating warmth, and protection from the elements.

LAYERING 101

Choosing the proper mix of outer layers, insulating mid-layers, and base layers next to your skin is essential to staying comfortable on your sled. Many factors come into play when choosing the right options. Considering your personal preference for warmth, breathability, and versatility is critical to making an informed decision.

HOW YOU RIDE	WHERE YOU RIDE	TEMPERATURE REGULATION
<p>Active</p> <p>If you move around on the sled a lot stand often, you need to consider moisture wicking with breathability and being able to move freely. Versatility with multiple venting options is important.</p>	<p>Changeable</p> <p>Do you ride in areas where the temp varies day to day? Versatility will be important, along with breathability.</p>	<p>ALWAYS HOT</p> <p>Warmer people will find heavy base layers to be too much. They will also need breathability and versatility as they change layers throughout the day.</p>
<p>laid-back</p> <p>If you like riding in a relaxed manner, keeping body heat close to the skin is important. Insulating layers are more important for you.</p>	<p>Extreme Cold</p> <p>If you frequently ride in cold environments and rarely find the need to strip layers, you need to pay close attention to the warmth of your clothes and how well they breathe so you don't get too warm.</p>	
		<p>Chill Easily</p> <p>If you find yourself cold often, keeping your core temperature up is important. Insulating layers at each level are key.</p>

BASE

Helps regulate your overall temperature by wicking away moisture. Polyester performs best. Once cotton gets wet, it stays wet.

INSULATING

Works to pull moisture away while keeping body heat near the skin. This layer has the most influence on your climate and is adaptable as the day wears on. Polyester and fleece are ideal.

OUTER

Regulates your body temp by venting moisture and blocking out wind, snow, and water. Factors like the breathability and versatility of this layer are important considerations depending on your preferences.

QUALITY STARTS HERE

Polaris® engineers existing technologies into all its riding apparel to deliver unparalleled performance in the elements. High-tech treatments and materials combined with Polaris® design and engineering keep you dry when others are wet, and warm when others are cold. Because the elements shouldn't dictate your comfort while on a ride—you should.

STAY DRIER

Trusted around the globe by millions, Gore-Tex® fabric is guaranteed to keep you dry by deflecting moisture and wind without compromising breathability.

DWR

RESIST MOISTURE

All garments are treated with superior Durable Water Repellency (DWR) to prevent any precipitation from saturating the outer fabric. The DWR causes the water to bead up and run off helping to keep you dry. Tested up to 50 washes.

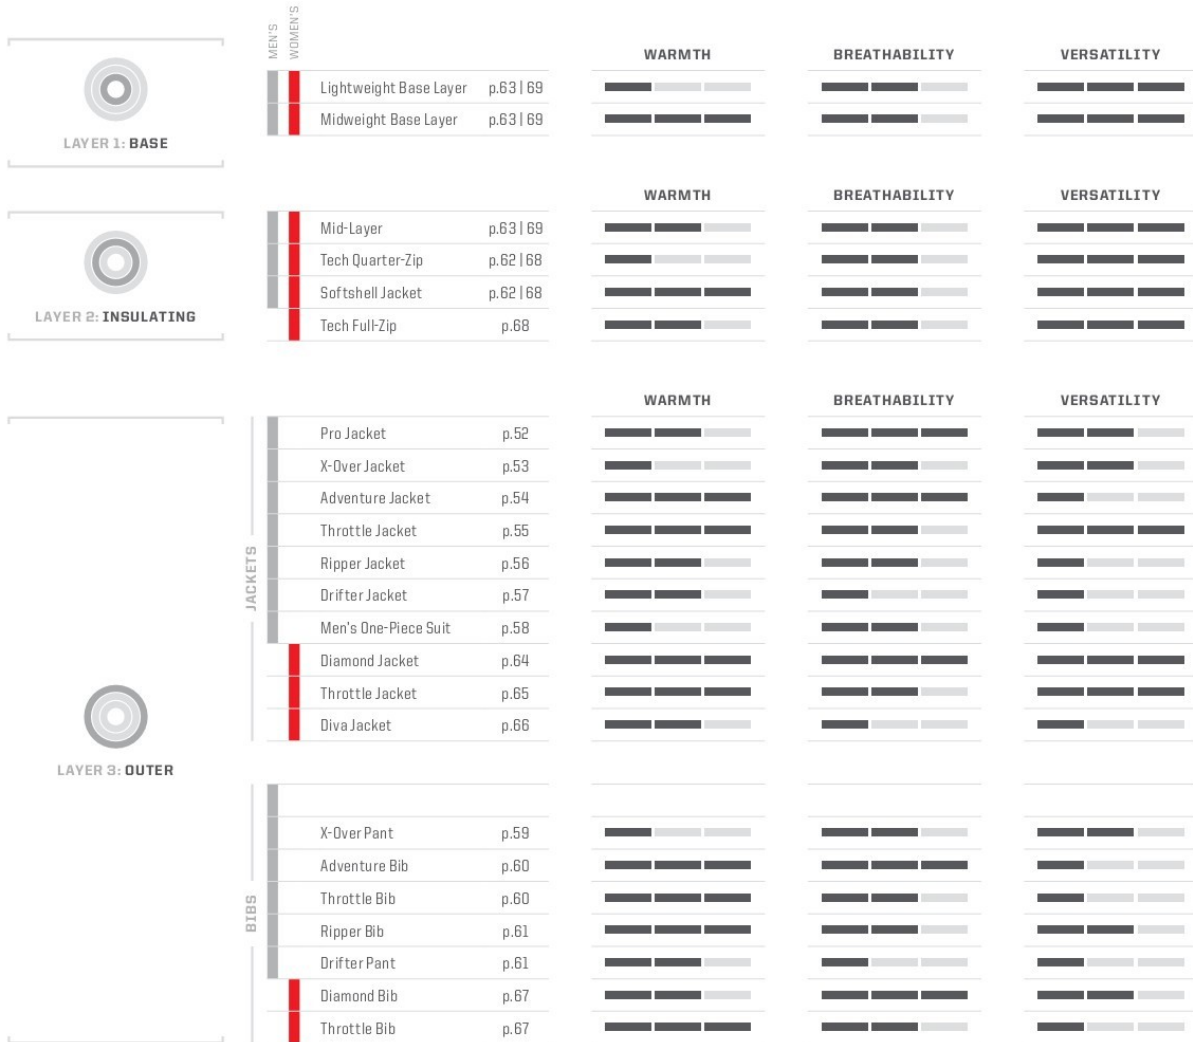

MAKE AN **INFORMED** DECISION

We make it easy to choose gear by rating all layering options by three easy-to-understand attributes to help you dial in the perfect balance of comfort and performance for you.

WARMTH: This is a combination of all factors that go into the garment, like material construction, insulation material, how well it cuts the wind, and how well it repels water.

BREATHABILITY: All Polaris® Gear is breathable to some degree. This rating reflects the material and venting features used in construction.

VERSATILITY: How adaptable an item is as the outside climate changes throughout your ride. Includes features such as removable liners and adjustable venting.

SIZING GUIDE

HELMETS

MEN'S MONOSUIT

ONE-PIECE DELIVERS FULL RANGE OF MOTION AND KEEPS THE SNOW OUT

SHELL

- Durable 600D polyester outer fabric resist snagging or pilling
- Superior DWR causes water to bead up and run off helping to keep you dry

FEATURES

- One-piece construction ensures powder stays on the outside
- Provides room for a mid-layer for added warmth against the cold
- Features venting in several locations for temperature adjusting
- Adjustable waist and cuffs, leg and wrist gaiters, and integrated suspenders

WARMTH

BREATHABILITY

LAYER:
OUTER

ACTION BACK

Hidden stretch panels located near outer shoulder allow for ample movement during active riding.

INTEGRATED SUSPENDERS

The waist fits snugly to the body thanks to adjustable waist cuffs.

FULL-LEG YKK® ZIPPERS

Full-leg YKK® zipper construction allows for easy on and off. Also, it helps with venting when off the sled.

MEN'S BIBS

SKAFFA POLARISKORTET REDAN IDAG!

DELBETALNING UPP TILL

24 MÅNADER

PÅ TILLBEHÖR, KLÄDER,
RESERVDELAR OCH SERVICE.

Betala räntefritt i din egen takt

Med Polariskortet har du möjlighet att dela upp din betalning för tillbehör, reservdelar, kläder samt servicekostnader. Du väljer själv delbetalningsalternativ utifrån vad som passar dig bäst: räntefritt, lägre månadskostnad eller några månader betalningsfritt. Delbetalning erbjuds i samarbete med Santander Consumer Bank.

Ett kort med fördelar

När du ansöker om räntefri delbetalning får du ett MasterCard. Med Polariskortet handlar du alltid lika förmånligt hos oss. Dessutom har du alltid upp till 60 dagars räntefri kredit på allt du betalar med kortet överallt i världen.

Enkel ansökan - Du får svar direkt

Du ansöker enkelt hos någon av våra återförsäljare eller direkt på nätet genom tjänsten Köpklar. Du får svar på din ansökan inom några minuter.

KOM KÖPKLAR!

Ansök om delbetalning på webben och ha det klart när du kommer till din återförsäljare. Du ansöker enkelt genom att fylla i alla uppgifter i ansökan och välja delbetalningsalternativ. Du får svar direkt efter sedvanlig kreditprövning. Din ansökan är giltig i en månad, så när det passar dig bäst går du till din återförsäljare, handlar det du vill och avslutar din ansökan. - Glöm inte att ta med din legitimation.
