DESIGNED FOR YOU ENGLISHED FOR

Ensuring Polaris Engineered Accessories" fit and work in sync with your machine is the most critical phase of testing and validation. With seamless integration, you can trust that any Polaris" accessory you install will enhance your interaction beyond your expectations.

DESIGNED

Only Polaris Engineered Accessories are conceived, designed and fabricated in lockstep with the Polaris SPORTSMAN development process. As the vehicle progresses from concept to production, so do the accessories. This ensures perfect fit and optimal performance.

TESTED

The Polaris® testing process is rigorous and unforgiving. We put both vehicle and accessory through extreme use conditions both in the lab and in the field – in all environments, and in locations spanning the continent. If it doesn't pass our standards, it's not ready for your Polaris® vehicle. This means only the best make it to production.

TRUSTED

Developing the best, most premium accessories in the industry is our passion. Only Polaris* can combine decades of industry-leading experience, innovation, and off-road expertise. You can have confidence in your Polaris Engineered Accessories*, because we know the lifestyle and live it everyday.

POLARIS® PARTNERS WITH THE BEST

We choose our partners carefully, selecting only the best in off-road. Every accessory is rigorously tested and validated at Polaris® standards, to ensure seamless integration and performance.

SPORTSMAN® ULTIMATE SERIES

The ultimate rec / utility ATVs deserve the ultimate line of accessories. Equip your Sportsman XP® 1000 or 850 with our line of Ultimate Accessories and enjoy all-day comfort. Add a windshield to cut the bitterly cold wind, keep your hands warm with a simple-to-install hand warmer kit, prevent items from sliding off your racks with an extension kit, or simply add more storage.

SPORTSMAN® ULTIMATE SERIES WINDSHIELDS

WINDSHIELD FAIRING

- Customizable system based on your style and protection needs
- · All-new fairing is the base for the best wind protection system to date

GRIZZLY TESTED. POLARIS® APPROVED.

This cooler is IGBC-approved, meaning it withstands the power expended by a typical grizzly bear if it was trying to get inside. Seriously, there are experts who know what a grizzly is capable of doing, and they certify that the Polaris Northstar® Cooler can take it,

SUPERIOR

INTEGRATION

Right from the factory, your vehicle is built to make essential accessories like winches and plows quick and simple to install and use regularly. Mounting brackets are designed into the chassis and wiring is routed securely and properly. Perfect fit, perfect integration.

DEPENDABLE. TOUGH. BUILT FOR THE OFF-ROAD.

Tested **1,200+** pulls at max load, it works when you need it to

Built to withstand -29°C temperatures

Sealed motor & heavy duty gears **OPERATE FULLY SUBMERGED UNDERWATER**

MILITARY tested & approved

PRE-WIRED CHASSIS

Handlebar controls and wiring are installed at the factory. Mount the winch, connect the wires and trust that everything is routed safely, securely, and properly.

> NO NEED TO **CUT PANELS**

FULLY INTEGRATED MOUNT & WIRING

GLACIER® vs. **COMPETITION**

No loss of factory ground clearance when not plowing.

Don't have to crawl under the machine to release the plow blade from the vehicle

No trimming of vehicle plastic or fascia required to mount plow or winch.

UPGRADE YOUR □□□ WINCH WITH THESE ACCESSORIES

POLARIS® AUTO-STOP WINCH UPGRADE KIT

- Requires use of synthetic cable rope (not included)
- ALL SPORTSMAN® & POLARIS ACE® MODELS

SYNTHETIC

- Includes pre-woven hook
- » 2878888
- 3500 LB (1588 KG) & 2500 LB (1134 KG) WINCHES

WHY UPGRADE TO SYNTHETIC?

- Easier to work with flexible and smooth texture
- More durable for plow usage
- Doesn't kink or bind like steel cable
- Lighter weight even floats on water

22

When you have the power of a Glacier* Pro Plow System on your machine, you can truly take command of clearing snow and moving whatever you need to. Find the blade that fits your needs and you'll make quick work of even the heaviest jobs.

THE POLARIS ENGINEERED* ADVANTAGE

INSTALLATION

30 seconds: Drive up, clip in, lock down, and go – the integrated Polaris Engineered™ Glacier® Plow System simplifies plowing.

CONVENIENCE

Lift and angle adjustments can be made from the driver's seat.

RIGHT FROM YOUR SEAT WITH THE GLACIER® PRO PLOW HYDRAULIC ANGLE SYSTEM

ROBUST FRAME

A plow system is only as strong as its frame, and Polaris Engineered" plow frames have a wide frame to withstand the rigors of heavy plowing.

DURABILITY

Available in strong stamped steel or corrosionresistant poly materials, Polaris Engineered™ plow blades cover a large surface area for quick snow removal.

TIRES

Polaris[®] and Pro Armor[®] developed a deep partnership thanks to having similar histories and passion for producing products that enhance vehicle performance. Each wheel and tire Pro Armor[®] designs and engineers for Polaris[®] off-road vehicles perform perfectly in the intended environment for its intended use. Developed, tested, and produced in partnership so you can tackle the terrain ahead.

10-PLY

Pro Armor* builds the toughest tires to keep you running when the terrain turns tough. A higher ply rating means added protection. Choose your tire and ply rating based on use and overall performance needs.

DUAL COMPOUNDS

You don't ride or drive in the same terrain, so
Pro Armor® builds certain tires with multiple
wear zones. A dual-durometer design
allows the tire to wear better with softer
outer lugs and harder inner lugs.

TIRE: DUAL-THREAT

WHEEL: **BUCKLE ACCENT**

TRIPLE-BELTED SIDEWALLS

Sidewalls can be a vulnerable area of any off-road tire. Rocks jump out at your machine and tear into sidewalls. Thanks to reinforced construction in this critical area, Pro Armor® resists when others fail.

TORTURE-TESTED TOUGH

We set out to develop the best-performing, tightest-sealing cab on any utility side-by-side. Talk is cheap without proven results. Dust, water, noise-all proved troublesome for the competition, but not for *RANGER* Pro Shield. The results speak for themselves.

4,828 km RATED

Pile on the miles with Pro Armor* tires. Every tire is designed and constructed with longevity in mind. With ratings of 4,828 km and beyond, you are assured long life and performance.

TRAIL

FRONT REAR

PRO ARMOR® DUAL-THREAT

Engineered with dual-compound technology and radial construction to offer revolutionary off-road performance in all terrains. The lateral-grip compound on the outer edges of the tire has a softer durometer rubber for cornering performance and superior grip. The long-wearing compound in the middle of the tire has harder durometer rubber for increased traction during $\dot{\text{acceleration}}, \text{straight line stability, and overall longer tread life.}$

PRO ARMOR® ATTACK

- The best all-purpose tire for all-season traction in any terrain
- Unique full-face tread design
- ${f \cdot}$ Harder durometer lugs promote extended wear, increasing tire life

It's tough to make Sportsman® and Polaris ACE® even more versatile than they already are. But with a set of Prospector Pro® Tracks, you'll do just that. Tread through deep snow without concern.

Polaris*-specific gearing provides 1:1 ratio to:

- · Minimize track slip, providing better climbing ability and improved traction in deep snow
- Improve top speed over prior models by approximately 5%
- · Reduce operating RPM for a quieter ride
- · Improve driveline durability, which allows vehicle to run at a lower RPM, decreasing engine wear

New front dual stabilizer for improved stability

Polaris® Exclusive optimized hub geometry that minimizes feedback

> Lightweight design provides for better flotation, eases steering effort, and provides better vehicle control

Flexible lug design provides the highest level of deep snow performance by lifting up in deep snow as opposed to

Rigid® lights are driven by Aluminum PCB Smart Boards™ with copper thermal conductive pads, gold-plated electrical contacts, 6063-T5 aircraft aluminum extruded housings treated with Alodine® corrosion preventive, and Tiger Drylac® UV protection polyester powder coating.

EXCLUSIVE OPTICS

RIGID® hand-selects the brightest high-tech LEDs from the best manufacturers. The LEDs shine through patented optics that maximize total light output and efficiency. RIGID® lights feature impactresistant polycarbonate lenses for a 100% water/dustproof seal.

RIGID' LIMITED LIFETIME WARRANTY' BREAK YOUR LIGHT AND RIGID WILL REPLACE OR REPAIR IT FOR LIFE

RUGGED STYLING **DURABLE CONSTRUCTION**

Pro Armor® lights are designed to be big and beefy with an aggressive style all their own. Housed in IP67 marine-grade rated UV Polyester powder-coated with precision-cast end panels and oversized, extruded aluminum heat sinks to keep the temperature down.

MASSIVELY BRIGHT

Counting up to 66 3-5 watt CREE® LEDs pushing over 11,000 lumens, Pro Armor® lights are some of the brightest in the industry. All that power is directed through heatdissipating aluminum printed circuit boards for streamlined heat management.

SPECIFIC NEEDS, SPECIFIC OILS

Polaris® invests millions in engine development, and part of that investment is making sure its lubricants-critical to engine performance-are the right formula for your specific engine. The amount of testing data and engineering resources used in developing Polaris[®] lubricants would overwhelm an aftermarket company. Therefore, the aftermarket must spec an oil to an industry-wide standard that must account for a variety of

PS-4 is designed specifically for Polaris® 4-cycle engines and has high film strength and wear protection under extreme loads and temperatures. Exclusive anti-wear additives protect engine parts with extra rust and corrosion protection.

PS-4 FULL-SYNTHETIC OIL

PS-4 is optimal for ambient operating temperatures of -40° C to 38° C

POLARIS® PS-4

THE COMPETITION

Polaris® PS-4 oils exceed the latest industry protection standard as set by the API, while the etition uses standards from years ago. Ou etary additives clean and protect critical engine parts under high operating temperatures.

When tested against competitive oils, camshaft bearing races and lobes exhibit less wear when protected by Polaris' PS-4 oil.

PS-4 stronger protection for gears, cams and 40wt. oils

WHY VISCOSITY MATTERS: Polaris® engines are designed to operate using oils rated at a specific viscosity. Viscosity is the measure of an oil's nce to flow and shear and a way to gauge an oil's "film strength", which is a critical com preserving engine life when an oil is subject to high heat or heavy loads.

MAXIMIZE THE LIFE OF YOUR RIDE

All Polaris® fluids-from antifreeze to brake fluid-are developed for your vehicle. engineered for your needs.

AGL

A proprietary blend of additives designed to optimize Polaris* ORV transmission life. Extreme pressure additives protect gears, drive chain, and bearings from scoring and wear. Unlike typical gear case oils, AGL's unique viscosity range allows instant flow and film protection in extreme cold or high

FOR THE LIFE OF YOUR PUBLISHED

THE KEY TO KEEPING YOUR POLARIS® OFF-ROAD VEHICLE PERFORMING

as well as the day you brought it home is proper maintenance. Items like belts, filters and batteries represent only a few of these critical items engineered specifically by Polaris[®].

CHECK OUT OUR **PARTS FINDER ON POLARIS.COM** FOR EASY PARTS LOOK-UP, PARTS IDENTIFICATION, VIEWS OF ASSEMBLIES AND MORE!

POLARIS ENGINEERED" DRIVE BELTS

Polaris Engineered[™] belts deliver unmatched performance for your off-road vehicle. Our belts are developed and tested on all our engines for all environments and conditions. This ensures it doesn't merely fit your vehicle—it outperforms your expectations.

TESTED, PERFECTED

We test each belt on the intended vehicle
- we don't try to make an existing belt
"just work." The tolerances are tighter
than aftermarket alternatives, meaning
less heat for your engine, and you won't
have to recalibrate your clutch in order
to run at the engine's optimal RPM.
Aftermarket belts fluctuate in and out
of the optimal power band, which means
more wear on your clutch and more
maintenance needed to maintain power.

OUR INVESTMENT

We average **32,187** KM of field testing and **thousands of dyno hours** on each engine to ensure the Polaris[®] drive belt on your machine gives you peak performance with each and every ride.

CHECK YOUR OWNER'S MANUAL FOR ADDITIONAL RECOMMENDED SERVICE ITEMS AND VEHICLE SPECIFIC TIMING

POWERFUL, PORTABLE, DURABLE. These digital inverter generators are built to match your outdoor lifestyle, and are tested to the same rigorous standards as every Polaris® product. The 1000-watt generator is best for running a single device with low wattage requirements. The 2000-watt generator runs multiple devices with added surge protection and start-up wattage. The 3000watt generator handles high-output needs and runs multiple devices. It also includes electric start for ease of use when needed.

WHICH GENERATOR FITS YOUR NEEDS?

START by adding up the running watts of everything you might power at the same time. (use the chart on the left)

NEXT, pick the device with the highest running watts, and add its starting watts to the previous total.

NOW you have the total amount of watts you need from your generator. Select a generator with a slightly higher wattage.

POLARIS POWER® TIE-DOWN LEADS

• Secure your Polaris Power" Generator by inserting the Lock & Ride" Tie Down Leads into the handle and running a strap across to tie down the generator

- · Secures Lock & Ride" accepting gear
- Safely provides a point for 2.5 cm wide tie down strap
- » 2880959

POLARIS POWER® COLD

- Ensure smooth running of your Polaris* Generator in below -18° C temperatures
- Prevents ice blockage in the crankcase breather tube, which may lead to operational issues including oil leakage
- Installation required, no need to disconnect for warm weather operation
- Exclusively designed for use with Polaris* P1000i & P2000i inverter

POLARIS® FLEX JUMPSTARTER

12,000 mAh capacity. Two 5V/2.1A USB outputs, 200-lumen flashlight and a digital battery-life monitor. Includes storage case, smart jumper cables, car charger, wall charger, and user guide. 1-year limited warranty.

» 2830495

Never let a dead vehicle battery slow you down again. The Polaris® Flex Jump-starter is a compact solution that provides the power to get your ride started. Flex is small enough to be stored in your glovebox, and holds its charge so you can count on it when it's needed. In addition to being able to jumpstart ATVs, ORVs, snowmobiles, motorcycles, cars, & trucks, Flex can also charge any USB capable device through its dual USB outlets. Flex has the ability to jumpstart up to a 6.4L engine.

BatteryMINDer®

Make sure your vehicle's battery is properly maintained and ready for when you need it the most with a BatteryMINDer®. A tired battery is waiting for the perfect time to ruin your day, so make sure it gets charged and cycled properly. Easily one of the most essential pieces of equipment every garage needs.

BATTERYMINDER® 1510 1.5-AMP

- Recovers weak batteries
- · Ambient temperature sensor with wide operating range ensures the battery will never be overcharged or undercharged regardless of
- Extends battery life up to four times when compared to new batteries not being properly charged or maintained over
- Automatic full-time high frequency (not high voltage)
 pulse type desulfation
- Reverse polarity, short circuit, and over temperature protection
- » 2830404

BATTERYMINDER® 2012 AGM 2-AMP

- Designed for High-AGM Sealed Batteries
- Guaranteed to never overcharge, regardless of how long connected
- Temperature compensation ensures proper charge in hot or cold enviro
- · Ambient temperature sensor with wide operating range ensures the battery will never be overcharged or undercharged regardless of temperature extremes
- Maximizes battery life and capacity, reconditions weak
- » 2830438

BATTERYMINDER® 1.5 AMP CONVERTIBLE

- BatteryMINDer * 1.5 AMP On-board or Benchtop
- · Complete with two mounting brackets for multiple vehicles/locations, fully-insulated battery clips, and ring terminal-assembly for permanent direct-to-battery attachment.
- Charges, Maintains, Recovers 12-volt batteries
- · Maintains up to four batteries at a time

» 2830511

BATTERYMINDER® EZ CONNECT

- Allows for quick and easy connecting and disconnecting of your BatterMINDer, includes a set of ring terminals
- » 2830411

BATTERYMINDER® 30 cm CABLE

- Made with heavy-duty 30 cm black zip cord featuring automotive SAE bullet connectors
- » 2830410

• Attaches to battery while in vehicle or for

· Guaranteed to never under- or overcharge

· Can extend battery life up to four times

Recovers and reconditions deeply discharged batteries automatically, using high-frequency pulse type desulfation circuitry

• A simple, safe, and affordable way to connect two batteries simultaneously for easy battery maintenance, cap includes a set of ring

BATTERYMINDER® SPLITTER

» 2830409

BATTERYMINDER® RING TERMINAL

- Features 61 cm long 18-gauge wire
- Plug has standard .8 cm negative and .95 cm
- Replaceable 15-am in-line fuse for circuit protection
- Uses SAE quick connector and cap
- » 2830437

TOOL STORAGE SOLUTIONS

Give your tools a dedicated spot with a properly sized rolling base. Extra-deep drawers are great for storing power tools and bulky items.
