POLARIS® PRO HD WINCHES + GLACIER® PLOW SYSTEMS

Right from the factory, your vehicle is built to make essential accessories like winches and plows easy to use day-in and day-out. Mounting brackets are designed into the oversized factory bumper and wiring is routed securely and properly. When it comes to RANGER*, Polaris Engineered Accessories™ make work easier so you can get more done.

PRE-WIRED CHASSIS

Dash mounted controls and wiring are installed at the factory. Mount the winch, connect the wires and trust that everything is routed safely, securely, and properly.

To install the plow, simply lift the mount lock handle and pull forward.

No loss of factory ground clearance when not plowing.

Don't have to crawl under the machine to release the plow blade from the vehicle.

No trimming of vehicle plastic or fascia required to mount plow or winch.

ANGLE YOUR BLADE RIGHT FROM YOUR SEAT

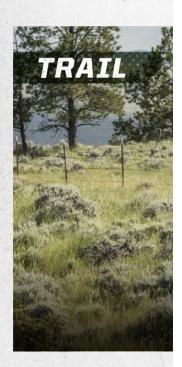

PANGER XP WORK HARD AND GET IT DONE with Polaris Engineered Accessories[™] for your RANGER.

WORK HARD AND GET IT DONE with Polaris Engineered Accessories™ for your RANGER*. Start with the ultimate in all-season performance and comfort with the best cab components in the industry. Then add in lighting, wheels, tires, a winch, Glacier* plows and more. Find everything you need to outfit your trusted partner for the task at hand.

1000 IT YOURS.

OVERHEAD

PROTECTION

TO SHIELD AGAINST DRIVING RAIN OR THE BLISTERING SUN, a roof is the first must-have of the Polaris Engineered cab components. Choose from poly, steel or canvas, and get on your way with protective peace of mind.

POLY

Lightweight, durable and impact-resistant. A poly roof can take the abuse of a tough trail and still protect.

ROOF LINERS

Get a touch of premium comfort, reduce cab noise and hide wiring. Roof liners are included with all premium poly roofs, add a roof liner to your sport roof for added fit and finish.

ULTIMATE CLARIT

FOR THE ULTIMATE IN SCRATCH RESISTANCE AND CLARITY, nothing beats glass. It has the most optical clarity of any windshield material, so you can keep riding regardless of the weather. Reduce the dust swirl from the windshield and roof by adding a rear panel to keep the cab clean and comfortable.

TIP-OUT WINDSHIELD - GLASS TOPSELLET

- · Offers 3 positions-open, closed and vented
- · Tip-out design allows for partial venting or open-air freedom
- · Gas shocks assist in easy opening
- 360° gasket for reliable protection and comfort
- · Automotive-style curved glass
- Scratch-resistant safety glass
- Improved interior sound dampening and optimized visibility
- · Bolt-on design installs directly on
- · Designated mounting locations

POLARIS ENGINEERED

ADVANTAGES

AIRTIGHT GASKET SEAL

RANGER windshields feature a 360" gasket seal, preventing moisture and dust from entering the cab

MULTI-FUNCTION FEATURES

Venting options are useful for controlling air flow into the cab.
This allows you to regulate the temperature inside. A low-profile exterior fromework on the windshields gives an unobstructed field of vision.

REVOLUTIONARY INSTALLATION

Every Lock 6 Ride® windshield utilizes a unique clamp that secures your windshield with the perfect amount of hold for rough trail conditions, yet still allows for easy, tool-less removal.

EXEMPE EXAMELES

REDUCE IN-CAB DUST SWIRL BY ADDING A REAR PANEL

With a windshield and roof installed, turbulent air develops behind the cab. Add a rear panel to reduce dust intrusion from this swirl.

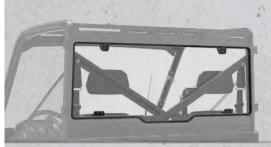

LOCK & RIDE

REAR PANEL - SLIDING GLASS

- Sliding window provides ventilation, cab comfort and access to cargo in rear box

OVERHEAD

PROTECTION

TO SHIELD AGAINST DRIVING RAIN OR THE BLISTERING SUN, a roof is the first must-have of the Polaris Engineered cab components. Choose from poly, steel or canvas, and get on your way with protective peace of mind.

POLY

Lightweight, durable and impact-resistant. A poly roof can take the abuse of a tough trail and still protect.

ROOF LINERS

Get a touch of premium comfort, reduce cab noise and hide wiring. Roof liners are included with all premium poly roofs.

STEEL

For the ultimate in strength and protection.

CANVAS

Lightweight and easy to clean. Canvas roofs install simply and store easily.

ULTIMATE CLARITY

FOR THE ULTIMATE IN SCRATCH RESISTANCE AND CLARITY,

nothing beats glass. It has the most optical clarity of any windshield material, so you can keep riding regardless of the weather. Reduce the dust swirl from the windshield and roof by adding a rear panel to keep the cab clean and comfortable.

WINDSHIELDS

TIP-OUT WINDSHIELD - GLASS TOPSELLET

- · Offers 3 positions-open, closed and vented
- · Tip-out design allows for partial venting or open-air freedom
- · Gas shocks assist in easy opening
- 360° gasket for reliable protection and comfort
- · Automotive-style curved glass
- Scratch-resistant safety glass
- · Improved interior sound dampening and optimized visibility
- · Bolt-on design installs directly on
- · Designated mounting locations

LOCK & RIDE FULL WINDSHIELD - GLASS TOPSELLER

- Provides the highest level of scratch resistance
- » 2882191

POLARIS ENGINEERED

ADVANTAGES

AIRTIGHT GASKET SEAL

RANGER" windshields feature a 360" gasket seal, preventing moisture and dust from entering the cab.

MULTI-FUNCTION FEATURES

Venting options are useful for controlling air flow into the cab.
This allows you to regulate the temperature inside. A low-profile exterior fromework on the windshields gives an unobstructed field of vision.

REVOLUTIONARY INSTALLATION

Every Lock & Ride® windshield utilizes a unique clamp that secures your windshield with the perfect amount of hold for rough trail conditions, yet still allows for easy, tool-less removal.

REDUCE IN-CAB DUST SWIRL BY ADDING A REAR PANEL

With a windshield and roof installed, turbulent air develops behind the cab. Add a rear panel to reduce dust intrusion from this swirl.

LOCK & RIDE

REAR PANEL - SLIDING GLASS

- Sliding window provides ventilation, cab comfort and access to cargo in rear box
- » 2879015

EASILY CONQUER WINTER'S WORST

Install a Polaris Glacier plow system and move some serious snow when winter's wrath comes calling. Only with a Glacier plow do you get drive up and plow capability with simple Lock & Ride installation and removal. Choose from the unbeatable capability of the top-of-the-line Glacier Pro HD, or get amazing performance and value with the Glacier HD.

THE POLARIS ENGINEERED ADVANTAGE

LOCK & RIDE INSTALLATION

With the integrated Lock & Ride® attachment points, you can easily drive up to the plow frame, attach and be

ROBUST PLOW FRAME

Constructed of heavy-duty steel with e-coated rust protection, giving you a durable system you can rely on season after season.

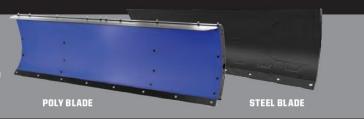

SHEAR PIN PROTECTION

Engineered to protect your vehicle, shear pins act as a fail-safe point in the instance of accidental collision or over-exertion of the plow system.

BLADE MATERIAL

push more. Choose a steel blade for longevity and increased rigidity or a lightweight non-stick, poly blade that's easier on plowing surfaces.

CONVENIENT CONTROL

seat with the addition of hydraulics on the Glacier" PRO HD Plow System.

PLOW SYSTEM

HYDRAULIC CONTROL FOR EXTREME

SNOW REMOVAL

A robust frame and tough blades, combined with a convenient hydraulic angle system, allow your Glacier® Pro HD to move serious snow while you remain comfortable. Thanks to Lock & Ride® technology, the Pro HD comes standard with a convenient kickstand attachment to the plow frame, giving you the easiest attachment.

PRO ARMOR.

RUGGED CONSTRUCTION

Pro Armor® lights are designed to be big and beefy with an aggressive style all their own, and housed in IP67 marinegrade rated UV polyester powdercoating. Our lighting is ECE Contified.

MASSIVELY BRIGHT

Pro Armor® builds bright lights designed for any riding experience. All that power is directed through heat dissipating aluminum for streamlined heat management.

DUAL-ROW LED LIGHT BARS

The most spread and farthest illumination downrange. Easy to mount.

Available in Cube, 25.4 cm, 50.8 cm, 6 76.2 cm

SINGLE-ROW LED LIGHT BARS

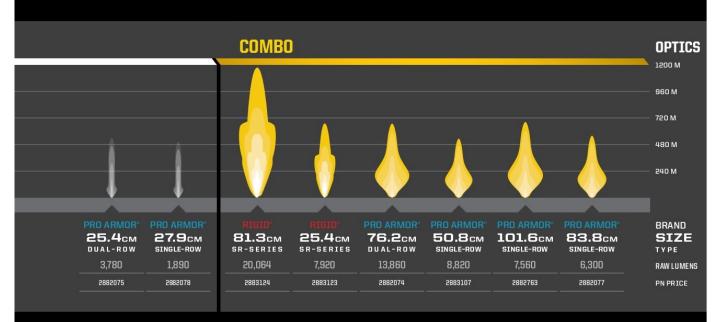

Powerful, compact, low-profile light bars with sleek look.

Available in 27.9 cm, 83.8 cm, & 101.6 cm

CUBE LED LIGHTS

Small size allows mounting in strategic locations for added lighting. **Available in Flood & Spot**

PROARMOR.

Polaris 6 Pro Armor developed a deep partnership thanks to having similar histories and a passion for producing products that enhance vehicle performance. Each wheel 6 tire Pro Armor designs and engineers for Polaris Off-Road Vehicles performs perfectly in the intended environment for its intended use. Developed, tested and produced in partnership so you can tackle the terrain ahead.

TRIPLE-BELTED SIDEWALLS

Sidewalls can be a vulnerable area of any off-road tire. Thanks to reinforced construction in this critical area, Pro Armor" resists when others fail.

10-PLY

Pro Armor[®] builds the toughest tires to keep you running when the terrain turns tough. A higher ply rating means added protection.

INNOVATION

A dual-durometer design allows the tire to wear better with softer outer lugs and harder inner lugs.

TIRE: DUAL-THREAT

WHEEL: BUCKLE ACCENT

4,828+

Pile on the with Pro Armor* tires. Every tire is designed and constructed with longevity in mind, you are assured long life and performance.

SPECIFIC NEEDS, SPECIFIC OILS

Polaris invests millions in engine development, and part of that investment is making sure its lubricants-critical to engine performance-are the right formula for your specific engine. The amount of testing data and engineering resources used in developing Polaris lubricants would overwhelm an aftermarket company. Therefore, the aftermarket must spec an oil to an industry-wide standard that must account for a variety of operating parameters.

PS-4 is designed specifically for Polaris 4-cycle engines and has high film strength and wear protection under extreme loads and temperatures. Exclusive anti-wear additives protect engine parts with extra rust and corrosion protection.

POLARIS® PS-4

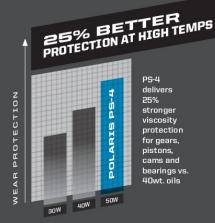

THE COMPETITION

Polaris PS-4 oils exceed the latest industry protection standard as set by the API, while the competition uses standards from years ago. Our proprietary additives clean and protect critical engine parts under high operating temperatures.

When tested against competitive oils, camshaft bearing races and lobes exhibit less wear when protected by Polaris PS-4 oil.

PS-4 delivers 25% stronger viscosity protection for gears. pistons, bearings vs. 40wt. oils

WHY VISCOSITY MATTERS: Polaris engines are designed to operate using oils rated at a specific viscosity. Viscosity is the measure of an oil's resistance to flow and shear and a way to gauge an oil's "film strength", which is a critical component in preserving engine life when an oil is subject to high heat or heavy loads.

PS-4 **RACE PROVEN** PERFORMANCE

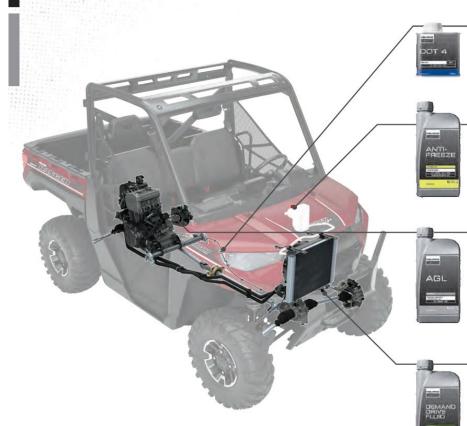

"The Baja 1000 is probably the toughest race in the world! In the brutal Baja desert there are so many things that can ruin your race it is great to know that Polaris Engineered Lubricants will never let us down.

We trust in the Polaris $^\circ$ products like the PS-4 motor oil to protect our machines vitals, they are a critical part of a winning formula."

BILL SCHUELER CREW CHIEF JAGGED X

ENGINEERED TO MAXIMIZE THE LIFE OF YOUR RIDE

All Polaris fluids—from anti-freeze to brake fluid—are developed for your vehicle. Trust the only fluids perfectly engineered for your needs.

DOT 4 BRAKE FLUID

Polaris DOT 4 Brake Fluid is a high-quality brake fluid designed for use in Polaris hydraulic brakes. Superior high-temp characteristics plus anti-corrosive additives extend the life of brake system components and provide consistent, positive braking.

» • 502081

ANTI-FREEZE

Polaris Extended Life Coolant contains organic acid technologies to prevent corrosion on metal components, eliminate scaling, and maximize cooling system performance.

- » · 502103
- » · 502271
- » · 502091

AGL

A proprietary blend of additives designed to optimize Polaris' ORV transmission life. Extreme pressure additives protect gears, drive chain, and bearings from scoring and wear. Unlike typical gear case oils, AGL's unique viscosity range allows instant flow and film protection in extreme cold or high heat environments.

- » · 502080
- » · 502151
- » · 502152

DEMAND DRIVE FLUID

Engineered specifically for Polaris ORV front drive systems. Provides positive 4WD engagement in extreme cold or high heat conditions. Unique friction additives protect internal components under heavy loads and promote positive engagement.

- » · 502094
- » · 502264
- » · 502267

Proper lubricant application and timing will ensure optimal vehicle performance. Please refer to your owner's manual for lubricant change interval schedules.

CARBON CLEAN

Polaris Carbon Clean prevents ethanol corrosion, stabilizes fuel, and cleans fuel injectors, piston ring lands, intake systems, and combustions chambers. Helps maintain peak HP and improves fuel economy

» • 502082

FUEL STABILIZER

Fuel Stabilizer prevents ethanol corrosion and stabilizes fuel for up to 2 years. Dualantioxidant formula protects against gum and varnish for easy starting.

THE KEY TO KEEPING YOUR POLARIS® OFF-ROAD VEHICLE PERFORMING

as well as the day you brought it home is proper maintenance. Items like belts, filters, and batteries represent only a few of these critical items engineered specifically by Polaris.

DRIVE BELTS

Polaris Engineered" belts deliver unmatched performance for your off-road vehicle. Developed and tested on all our engines for all environments and conditions. Check your belt for delamination, hour qlassing and glazing.

OIL FILTERS

Change oil filters with every oil change to provide the best protection for your engine. Superior engine protection keeps your engine operating at peak performance. Be sure to follow the suggested service intervals for oil/oil filter changes.

BATTERIES

Never leave a battery unattended during the storage season. To ensure your battery maintains its level of charge when unused for extended periods of time or during freezing weather, the battery should be connected to a BatteryMINDer. Be sure to check for corrosion from the terminals to the ends of the cables.

MAINTENANCE TIP

BREAK-IN PERIOD

The break-in period for your new RANGER is the first 25 hours of operation, or the time it takes to use the first two tanks of fuel. No single action on your part is as important as a proper break-in period. Careful treatment of a new engine will result in more efficient performance and longer life for the engine. Perform the listed procedures carefully.

NOTICE: Excessive heat build-up during the first three hours of operation will damage close-fitted engine parts. Do not operate at full throttle or high speeds for extended periods during the first three hours of use.
