THE JOURNEY TO

TESTED

THE POLARIS® TESTING PROCESS is rigorous and unforgiving. We put every vehicle and accessory through extreme-use conditions both in the lab and in the field-in all environments, and in locations spanning the continent. If it doesn't pass our standards, it's not ready for your Polaris® vehicle. Only the best accessories make it to production.

P&LARIS[®]

ENGINEERED PARTS ACCESSORIES & APPAREL

TRUSTED

DEVELOPING THE BEST, MOST PREMIUM accessories in the industry is our passion. Only Polaris® can combine decades of industry-leading experience, innovation and off-road expertise. Have confidence in your Polaris Engineered Accessories, because we know the lifestyle and live it every day.

POLARIS® PARTNERS WITH THE BEST

We choose our partners carefully, selecting only the best in off-road. Every accessory is rigorously tested and validated at Polaris® standards to ensure seamless integration and performance.

ADVANCED TECH

RIGID® lights are driven by Aluminum PCB Smart Boards[™] with copper thermal conductive pads, gold-plated electrical contacts, 6063-T5 aircraft aluminum extruded housings treated with Alodine® corrosion preventive, and Tiger Drylac UV protectant polyester powder coating.

EXCLUSIVE OPTICS

RIGID® hand-selects the brightest hightech LEDs from the best manufacturers. The LEDs shine through patented optics that maximize total light output and efficiency. RIGID® lights feature impactresistant polycarbonate lenses for a 100% waterproof /dustproof seal.

RIGID[®] LIMITED LIFETIME WARRANTY

If you own a RIGID® light and it breaks, we will replace or repair it for life.*

SR-SERIES PRO NEW

These single-row LED Light Bars provide a sleek, powerful, low-profile lighting solution that measures less than 5 cm tall. The SR-Series is designed to project light at extreme distances while consuming very little power. Available in a wide range of lengths and configurations.

PROARMOR®

RUGGED STYLING, DURABLE CONSTRUCTION

Pro Armor® lights are designed to be big and beefy with an aggressive style all their own. Housed in IP67 marine-grade rated UV Polyester powder-coated with precision-cast end panels and oversized, extruded aluminum heat sinks to keep the temperature down.

EXCLUSIVE OPTICS

Counting up to 66 3-5 watt CREE® LEDs, Pro Armor® builds bright lights designed for any riding experience. All that power is directed through heat-dissipating aluminum printed circuit boards for streamlined heat management.

DUAL-ROW LED LIGHT BARS

For the most spread and the farthest illumination downrange,
Pro Armor® Dual-Row Light Bars are easy to mount and perform
beyond expectations. Choose from several lengths and configurations.

CUBE LIGHTS

Small and powerful, these cube lights can be mounted in strategic locations for added lighting.

SINGLE-ROW LED LIGHT BARS

Powerful and compact, these low-profile light bars look sleek and let you light up the night. Choose from several lengths and configurations to extend your ride.

OFF-ROAD GRADE AUDIO

When you research audio solutions for your Polaris RZR®, you'll see manufacturers bragging about how their audio equipment is "Marine Grade".

Or worse yet, you'll discover for yourself that they are repackaged components built for automotive applications. MB Quart®, combined with Polaris®, engineers Off-Road Grade Audio equipment that's proven to deliver the loudest, crispest sound in the harshest conditions. Rain, snow, mud, heat, cold, dust—ANY PLACE YOUR RZR® EXCELS, SO WILL YOUR AUDIO.

SNOW MUD SAND

RAIN

SURROUNDED BY SOUND

POLARIS® AND MB QUART® partner to bring you an audio experience that is powerful and comprehensive. A full offering of solutions if available for your ultimate RZR® audio build. Choose from loud to louder. Each component is designed and engineered to enhance your surround sound experience while surviving the harshest environments.

DOMINATE ANY ENVIRONMENT

CHECK OUT THE FOLLOWING PAGES TO FIND YOURS

Polaris® and Pro Armor® developed a deep partnership thanks to having similar histories and a passion for producing products that enhance vehicle performance. Each wheel and tire Pro Armor® designs and engineers for Polaris® off-road vehicles performs perfectly in the intended environment for its intended use. Developed, tested, and produced in partnership so you can tackle the terrain ahead.

10-PLY

Pro Armor* builds the toughest tires to keep you running when the terrain turns tough. A higher ply rating means added protection. Choose your tire and ply rating based on use and overall performance needs.

DUAL COMPOUNDS

You don't ride or drive in just one type of terrain, so Pro Armor® builds certain tires with multiple wear zones. A dual-durometer design allows the tire to wear better with softer outer lugs and harder inner lugs.

TIRE: DUAL-THREAT

WHEEL: BUCKLE ACCENT

TRIPLE-BELTED SIDEWALLS

Sidewalls can be a vulnerable area of any off-road tire. Rocks jump out at your machine and tear into sidewalls. Thanks to reinforced construction in this critical area, Pro Armor® resists damage.

TORTURE-TESTED TOUGH SIDEWALLS

Most tire makers only test puncture resistance in the tread and along the bead. In the toughest terrains you're more likely to puncture the sidewall. Pro Armor® builds its tires with triple-belted sidewalls, minimizing the chance of a puncture in that area.

STANDARD READ TEST NEW SIDEWALL TEST

4,828 KM RATED

Pile on the miles with Pro Armor tires. Every tire is designed and constructed with longevity in mind. With ratings of 4,828 kilometers and beyond, you are assured long life and performance.

SPECIFIC NEEDS, SPECIFIC OILS

Polaris® invests millions in engine development, and part of that investment is making sure its lubricants-critical to engine performance-are the right formula for your specific engine. The amount of testing data and engineering resources used in developing Polaris[®] lubricants would overwhelm an aftermarket company. Therefore, the aftermarket must spec an oil to an industry-wide standard that must account for a variety of operating parameters.

PS-4 is designed specifically for Polaris® 4-cycle engines and has high film strength and wear protection under extreme loads and temperatures. Exclusive anti-wear additives protect engine parts with extra rust and corrosion protection.

PS-4 FULL-SYNTHETIC OIL

POLARIS® PS-4

THE COMPETITION

Polaris® PS-4 oils exceed the latest industry protection standard as set by the API, while the etition uses standards from years ago. Ou etary additives clean and protect critical engine parts under high operating temperatures.

When tested against competitive oils, camshaft bearing races and lobes exhibit less wear when protected by Polaris' PS-4 oil.

WHY VISCOSITY MATTERS: Polaris® engines are designed to operate using oils rated at a specific viscosity. Viscosity is the measure of an oil's nce to flow and shear and a way to gauge an oil's "film strength", which is a critical component in preserving engine life when an oil is subject to high heat or heavy loads.

All Polaris® fluids-from antifreeze to brake fluid-are developed for your vehicle. Trust the only fluids perfectly engineered for your needs.

AGL

A proprietary blend of additives designed to optimize Polaris® ORV transmission life. Extreme pressure additives protect gears, drive chain, and bearings from scoring and wear. Unlike typical gear case oils. AGL's unique viscosity range allows instant flow and film protection in extreme cold or high heat environments

FOR THE LIFE OF YOUR PIDE

THE KEY TO KEEPING YOUR POLARIS® OFF-ROAD VEHICLE PERFORMING

as well as the day you brought it home is proper maintenance. Items like belts, filters and batteries represent only a few of these critical items engineered specifically by Polaris[®].

CHECK OUT OUR **PARTS FINDER ON POLARIS.COM** FOR EASY PARTS LOOK-UP, PARTS IDENTIFICATION, VIEWS OF ASSEMBLIES AND MORE!

POLARIS ENGINEERED* ORIVE BELTS

Polaris Engineered[™] belts deliver unmatched performance for your off-road vehicle. Our belts are developed and tested on all our engines for all environments and conditions. This ensures it doesn't merely fit your vehicle—it outperforms your expectations.

TESTED, PERFECTED

We test each belt on the intended vehicle
- we don't try to make an existing belt
"just work." The tolerances are tighter
than aftermarket alternatives, meaning
less heat for your engine, and you won't
have to recalibrate your clutch in order
to run at the engine's optimal RPM.
Aftermarket belts fluctuate in and out
of the optimal power band, which means
more wear on your clutch and more
maintenance needed to maintain power.

OUR INVESTMENT

We average **32,186** km of field testing and **thousands of dyno hours** on each engine to ensure the Polaris[®] drive belt on your machine gives you peak performance with each and every ride.

POWERFUL, PORTABLE, DURABLE. These digital inverter generators are built to match your outdoor lifestyle, and are tested to the same rigorous standards as every Polaris® product. The 1000-watt generator is best for running a single device with low wattage requirements. The 2000-watt generator runs multiple devices with added surge protection and start-up wattage. The 3000watt generator handles high-output needs and runs multiple devices. It also includes electric start for ease of use when needed.

WHICH GENERATOR FITS YOUR NEEDS?

START by adding up the running watts of everything you might power at the same time. (use the chart on below)

NEXT, pick the device with the highest running watts, and add its starting watts to the previous total.

NOW you have the total amount of watts you need from your generator. Select a generator with a slightly higher wattage.

» 2830495

Never let a dead vehicle battery slow you down again. The Polaris® Flex Jumpstarter is a compact solution that provides the power to get your ride started. Flex is small enough to be stored in your glovebox, and holds its charge so you can count on it when it's needed. In addition to being able to jumpstart ATVs, ORVs, snowmobiles, motorcycles, cars, & trucks, Flex can also charge any USB capable device through its dual USB outlets. Flex has the ability to jumpstart up to a 6.4L engine.

BatteryMINDer®

Make sure your vehicle's battery is properly maintained and ready for when you need it the most with a BatteryMINDer®. A tired battery is waiting for the perfect time to ruin your day, so make sure it gets charged and cycled properly. Easily one of the most essential pieces of equipment every garage needs.

BATTERYMINDER® 1510 1.5-AMP

· Recovers weak batteries

· Ambient temperature sensor with wide operating range ensures the battery will never be overcharged or undercharged regardless of temperature extremes

Extends battery life up to four times when compared to new batteries not being properly charged or maintained over their lifetime

• Automatic full-time high frequency (not high voltage)
pulse type desulfation

 Reverse polarity, short circuit, and over temperature protection

» 2830404

BATTERYMINDER® 2012 AGM 2-AMP

Designed for High-

 Guaranteed to never overcharge, regardless of how long connected

 Temperature compensation ensures proper charge in hot or cold environments

Ambient temperature sensor with wide operating range ensures the battery will never be overcharged or undercharged regardless of temperature extremes

 Maximizes battery life and capacity, reconditions weak batteries

» 2830438

BATTERYMINDER® 1.5 AMP CONVERTIBLE

BatteryMINDer * 1.5 AMP On-board or Benchtop

· Complete with two mounting brackets for multiple vehicles/locations, fully-insulated battery clips, and ring terminal-assembly for permanent direct-to-battery attachment.

Charges, Maintains, Recovers 12-volt batteries

· Maintains up to four batteries at a time

• Attaches to battery while in vehicle or for

Guaranteed to never under- or overcharge

Recovers and reconditions deeply discharged batteries automatically, using high-frequency pulse type desulfation circuitry

· Can extend battery life up to four times

» 2830511

BATTERYMINDER® EZ CONNECT

Allows for quick and easy connecting and disconnecting of your BatterMINDer*, includes a set of ring terminals

» 2830411

BATTERYMINDER® 3.65 M CABLE

 Made with heavy-duty 16 gauge black zip cord featuring auto connectors

» 2830410

BATTERYMINDER® SPLITTER

A simple, safe, and affordable way to connect two batteries simultaneously for easy battery maintenance, cap includes a set of ring

» 2830409

BATTERYMINDER® RING TERMINAL

• Features 61 cm long 18-gauge wire

• Plug has standard .8 cm negative and .95 cm

Replaceable 15-am in-line fuse for circuit protection

• Uses SAE quick connector and cap

PREMIUM TIRE SEALANT

- bead leaks, and punctures up to .62 cm on standard tires, and 1.91 cm on heavy ply tires
- Helps maintain air pressure foi the life of the tire
- Helps seal the tire bead
- 100% water soluble for
- » 946 ML 2830484 » 3.8 LITERS • 2830485
- » 18.9 LITERS 2830486
- Easily installed through existing tire valve stem with valve core removed

Remains fluid and effective in

· Will not rust, corrode, or

- » 18.9 LITER PUMP 2830487
- » 208 LITER 2830489 » 1041 LITER • 2830488

HOW IT WORKS

Tire sealant remains liquified inside your tire until a leak develops in the tire or

Once a leak occurs, the tire sealant rushes out of the tire and quickly creates a permanent solid plug.

The sealant plug maintains the pressure of the tire so you can continue your ride.

KEEP IT CLEAN

PRE-TREAT

MUD SHIELD PRE-TREATMENT

- Inhibits the adhesion of dirt, mud, and snow, making cleaning your vehicle faster and easier.
- » 473 ML AEROSOL

NEVER RUST SPRAY
